BOARD CHAIRMAN'S STATEMENT: DISTILLING VALUE

“ IT IS WITH A DEEP SENSE OF PRIDE AND RESPONSIBILITY THAT I PRESENT AN OVERVIEW OF EABL’S PERFORMANCE FOR THE 2024 FINANCIAL YEAR. THIS YEAR HAS BEEN ONE OF RESILIENCE, STRATEGIC FORESIGHT, AND ADAPTABILITY, MARKING A PERIOD OF VARIOUS ACHIEVEMENTS DESPITE OPERATING IN A CHALLENGING ECONOMIC ENVIRONMENT.”

OPERATING ENVIRONMENT

In Kenya, we navigated a tough landscape characterised by high interest rates, fluctuations in exchange rates, social and climate disruptions. Additionally, rising taxes impacted consumers’ disposable income and led to spend reprioritisation. Despite these headwinds, our flagship brands delivered strong growth, and we accelerated our innovations to meet evolving consumer preferences.

In Uganda, the political stability over the past year has been a key factor in supporting the country’s economic recovery, creating a more favourable environment for business operations. However, headwinds such as consumer downtrading due to macro-economic challenges have put pressure on topline, necessitating careful financial management and pricing strategies.

Tanzania has presented both opportunities and challenges for EABL in the past year. On one hand, the market offers significant growth potential due to its young population and rising middle class, which drives demand. However, regulatory challenges and economic uncertainty, including currency fluctuations and availability as well as inflation, has impacted consumer spending and posed risks to revenue stability.

PERFORMANCE OVERVIEW

EABL has demonstrated resilience and strategic agility, achieving strong results on the back of these hurdles. We posted a strong revenue growth of 13%, with operating profit growth, excluding foreign exchange (FX), of 10%. EABL’s profit after tax declined by 10%. This was mainly impacted by currency devaluation and significant increases in finance costs. Our improved cash generation from our operations helped expand our cash position to Kshs 10.8 billion; an increase of Kshs 1.8 billion compared to last year.

The Board of Directors has recommended a final dividend of Kshs 6.00 per share, bringing the total dividend to Kshs 7.00 per share increasing from Kshs 5.50 in FY2022/23, reflecting our commitment to delivering value to our investors, shareholders and customers.

SUSTAINABILITY

EABL continued to prioritise our 10-year sustainability action plan Society 2030: Spirit of Progress as a core element of our business strategy, recognising its critical role in securing the long-term success of our operations and the communities we serve. We made significant strides in our environmental stewardship, particularly in water conservation, renewable energy, and waste management.

Our investments in the Biomass Steam Plants and water efficiency projects have not only reduced our carbon footprint but also enhanced our resilience against resource scarcity. KBL’s Project Rudisha has made great strides in promoting our Grain to Glass sustainability pillar through effective waste management and recycling. We are proud to have collected over 17 million spirit bottles in the past year, underscoring our dedication to reducing our carbon footprint and supporting the circular economy. Moreover, our commitment to sustainable agriculture has seen us deepen partnerships with our 60,000 local farmers, promoting responsible sourcing and supporting livelihoods across our supply chain.

These initiatives align with our ambition to create shared value, ensuring that our growth contributes positively to society and the environment.

CORPORATE GOVERNANCE AND BOARD CHANGES

Our corporate governance framework continues to be robust, ensuring that we operate with integrity, transparency, and accountability. During the period, the Board focused on guiding the Company through the turbulent environment and mitigate emerging risks to deliver shareholder value.

The Board is pleased to welcome Mr. Paul D. Makanza with effect from 2 June 2024 whose extensive experience in the service and manufacturing sectors will enhance our leadership and drive our growth ambitions. We also extend our deepest gratitude to Mr. John Ulanga, who resigned this fiscal year after serving as Chairman of Serengeti Breweries Limited.

LOOKING AHEAD

Despite the ongoing volatility, the fundamentals of our business remain attractive, and we are well-placed to realise its potential. UJUMBE WA MWENYEKITI WA BODI : KUONGEZA THAMANI

“ NI KWA FAHARI KUBWA NA HESHIMA KUU KWAMBA NAWASILISHA KWENU KWA UFUPI MATOKEO YA EABL YA MWAKA WA KIFEDHA WA 2024. MWAKA HUU UMEKUWA WA UKAKAMAVU, MAONO YA KIMKAKATI, NA KUBADILIKA KUENDANA NA MAJIRA, NA NI KIPINDI AMBAPO TUMEPATA MAFANIKIO MBALIMBALI LICHA YA MAZINGIRA YA KIUCHUMI YALIYOJAA CHANGAMOTO.”

MAZINGIRA YA UENDESHAJI SHUGHU

Nchini Kenya, tulipitia mazingira magumu ambayo yalikuwepo na changamoto kama vile viwango vya juu vya riba, kuyumbayumba kwa viwango vya ubadilishanaji wa fedha za kigeni, na misukosuko ya kijamii na kimazingira. Kadhalika, kuongezwa kwa kodi kuliathiri fedha za matumizi ya hiari miongoni mwa wateja na kuchangia watu kubadilisha mtindo wao wa matumizi. Licha ya changamoto hizi, nembo zetu kuu ziliandikisha ukuaji imara, na tuliongeza kasi uvumbuzi wetu ili kukidhi mahitaji yanayobadilika ya wateja.

Nchini Uganda, uthabiti wa kisiasa katika mwaka uliopita kilikuwa kiungo muhimu katika kusaidia kujikwamua kwa uchumi wa taifa hilo, na kuunda mazingira rafiki kwa shughuli za kibiashara. Hata hivyo, changamoto kama vile wateja kukumbatia bidhaa za bei ya chini kutokana na changamoto za kiuchumi zimetoa shinikizo kwa mauzo yetu, na kusababisha kutafakariwa upya kwa usimamizi wa kifedha na mikakati ya kuamua bei za bidhaa.

Tanzania imetoa fursa na pia changamoto kwa EABL kwa mwaka uliopita. Upande mmoja, soko hilo lilitoa uwezo mkubwa wa ukuaji kutokana na idadi kubwa ya raia wake kuwa vijana, na pia kuongezeka kwa watu wa kipato cha wastani, jambo linaloongeza mahitaji ya bidhaa. Hata hivyo, changamoto za kisheria na kutotabirika kwa hali ya kiuchumi, ikiwa ni pamoja na kuyumba kwa thamani ya sarafu na upatikanaji wa fedha za kigeni pamoja na mfumko wa bei, ziliathiri uwezo wa wateja kufanya manunuzi na kutishia uthabiti wa mapato yetu.

MATOKEO KWA UFUPI

EABL imedhihirisha ukakamavu na uwezo wa kutambua hatari na kuzikabili, na pia kutambua fursa na kuzitumia vyema. Ni kutokana na hilo ambapo iliweza kuandikisha matokeo mazuri licha ya changamoto nyingi. Tuliandikisha ukuaji wa mapato wa 13%, ambapo ukuaji wa faida kutokana na shughuli zetu kuu za kibiashara, ukiondoa mapato kutoka kwa ubadilishanaji wa fedha za kigeni (FX), ulikuwa 10%. Faida ya EABL baada ya kutozwa ushuru ilipungua kwa 10%. Hii kwa kiasi kikubwa ilichangiwa na kushuka thamani kwa sarafu pamoja na ongezeko kubwa la gharama ya fedha za kufadhili shughuli zetu. Kuimarika kwa pesa taslimu zilizozalishwa kutokana na shughuli zetu kulitusaidia kuongeza kiwango chetu cha pesa

taslimu kuwa Kshs 10.8 bilioni; ongezeko la Kshs 1.8 bilioni ukilinganisha na mwaka uliotangulia.

Bodi ya Wakurugenzi imependekeza mgawo wa faida wa mwisho wa Kshs 6.00 kwa kila hisa, utakaofikisha jumla ya mgawo wa faida kuwa Kshs 7.00 kwa kila hisa. Hili ni ongezeko ukilinganisha na mgawo wa Kshs 5.50 kwa FY2022/23, na ni ishara ya kujitolea kwetu kuhakikisha thamani kwa wawekezaji, wenyehisa na wateja wetu.

UENDELEVVU

EABL imeendelea kuupa kipaumbele mpango wetu wa miaka kumi wa kuchukua hatua katika uendeleu wa Jamii 2030: Moyo wa Maendeleo kama kiungo muhimu katika mkakati wetu wa biashara. Hii ni ishara ya kutambua mchango wake muhimu katika kuhakikisha ufanisi wa kipindi kirefu wa shughuli zetu na jamii tunazohudumia. Tulipiga hatua kubwa katika uongozi wetu katika mazingira, hasa uhifadhi wa maji, nishati mbadala, na usimamizi wa taka.

Uwekezaji wetu katika viwanda vya mvuke wa viumbe hai na miradi ya utumizi bora wa maji, umepunguza uzalishaji wetu wa gesi ya mkaa na pia kuimarisha ukakamavu wetu dhidi ya uhaba wa rasilimali. Mradi wa KBL wa Rudisha umepiga hatua kubwa katika kuendeleza nguzo yetu ya uendeleu ya Kutoka kwa Nafaka hadi kwa Gilasi kupitia usimamizi mwema wa taka na urejelezeshaji. Tunajivunia kwamba tumeweza kukusanya chupa za vileo vikali zaidi ya 17 milioni katika mwaka uliopita, jambo linalotilia mkazo kujitolea kwetu kupunguza uchangiaji wetu wa kaboni kwenye mazingira na kusaidia uchumi wa mzunguko wa kutumia tena vitu vilivyotumika tayari.

Isitoshe, kujitolea kwetu kwa kilimo endelevu kumetufanya kukoleza ushirikiano wetu na wakulima wetu 60,000 wenyeji, na kuhamasisha ununuzi wa malighafi wa kuwajibika na kusaidia jamii kote katika mfumo wetu wa ununuzi na usambazaji wa bidhaa.

Mikakati hii inaendana na azma yetu ya kuunda thamani ya pamoja, na kuhakikisha ukuaji wetu unachangia na kuwa na manufaa kwa jamii na mazingira.

Tunatoa pia shukrani zetu za dhati kwa Bw. John Ulanga, aliyejiuzulu mwaka huu wa kifedha baada ya kuhudumu kama Mwenyekiti wa Serengeti Breweries Limited.

KUTAZAMA MBELE

Licha ya changamoto zilizopo, viashiria muhimu vya biashara yetu bado ni vya kuridhisha, na tupo katika nafasi nzuri ya kufikia uwezo wetu. Matokeo yetu katika mwaka huo uliopita yanaonyesha msingi thabiti ambao tumeujenga kutuwezesha kupitia vipindi vya misukosuko katika kipindi kifupi na cha wastani, na pia kuhakikisha ukuaji siku sijazo. Ufahamu wetu wa ndani wa wateja na uwekezaji katika maeneo mengi ya kimkakati ni muhimu katika kusaidia ukuaji na matokeo yetu siku za usoni.

SHUKRANI

Namshukuru Meneja Mkurugenzi na Afisa Mkuu Mtendaji wa Kundi, Jane, na kundi lake lote kwa kujitolea kwao, wepesi wa kuchukua hatua, na utekelezaji mwema wa mkakati wetu jambo ambalo limezalisha matokeo mazuri kwa wadau wetu. Kadhalika, shukrani zangu ziwaendee wenzangu katika Bodi, ambao ujuzi wao na bidii vingengeza thamani kwa Kampuni. Ningependa pia kutambua na kuwashukuru washirika wetu, wateja, watumiaji wa bidhaa zetu, wasambazaji wa bidhaa na wanaotuuza bidhaa, mashirika, na Serikali katika mataifa mbalimbali ambayo tunaendesha shughuli zetu.

CEO AND GROUP MANAGING DIRECTOR'S REVIEW: BREWING SUCCESS

“ THE YEAR HAS BEEN CHARACTERISED BY BOTH TRIUMPHS AND TRIALS, EACH CONTRIBUTING TO OUR GROWTH AND LEARNING AS AN ORGANISATION. ”

As we reflect on the fiscal year 2024, I am pleased to report that EABL has delivered a robust performance in the face of significant macro-economic challenges. Our journey, which began with recovery from the Covid-19 pandemic, has been marked by resilience, adaptability, and a steadfast commitment to our strategic objectives and highlights the strength of our core business and our ability to capture market opportunities effectively.

FINANCIAL PERFORMANCE AND MARKET DYNAMICS

FY2023/24 has seen EABL achieve commendable results with double digit revenue, partly driven by growth in volume, and operating profit excluding FX growth. This performance is particularly noteworthy given the complex operating environment across our key markets.

Kenya, representing 65% of our business, was our biggest growth driver delivering growth of 15% mainly driven by premium and value segments. Uganda delivered a strong first half but faced increased pressure in the latter part of the year due to reduced discretionary spending. We have seen recovery in Tanzania post the dip experienced in FY2022/23.

The broader economic pressures, like the rising cost of living, has impacted consumer spending power and led to spend reprioritisation out of our industry. Further, we observed an interesting trend in segment performance, with stronger growth in the premium and value segments and shrinking mainstream, depicting an hourglass effect.

Our cost base was also substantially impacted by exchange rate volatility particularly in Kenya and Tanzania, rising interest rates and supply input inflation largely driven by supply chain disruptions. Additionally, the El Niño rains felt across the region and the social unrest experienced in Kenya, caused disruptions to our operations.

STRATEGIC FOCUS AND INITIATIVES

Our strategic framework remains robust and relevant, focusing on key pillars that drive our business forward:

PORTFOLIO

As a true total beverage alcohol (TBA) player, we've continued to invest ahead in our brands and portfolio to lead and shape consumer trends. During the year, we launched exciting, consumer led, innovations across TBA. The commissioning of our new microbrewery marks a significant step in enhancing our innovation capabilities, allowing us to experiment and act with agility to address consumer demands.

ROUTE TO CONSUMER

We've made significant strides in improving our availability and expanding into new channels. Our e-commerce platform in Kenya - [Ke.TheBar.com](https://ke.thebar.com), capable of delivering products within 20 minutes, exemplifies our commitment to meeting evolving consumer needs.

SUSTAINABILITY AND ESG COMMITMENT

I'm particularly proud of our leadership in Environmental, Social, and Governance (ESG) initiatives through Society 2030: Spirit of Progress. We are prioritising the areas that have the most significant impact on our commercial performance and our advocacy efforts, including the harmful use of alcohol, water stress, carbon and our role in the communities in which we operate. I am proud that we are thought leaders in influencing the total ecosystem towards advancing the ESG agenda.

STRATEGIC FOCUS AND INITIATIVES

SUPPLY FOOTPRINT AND OPERATIONAL EFFICIENCY

With 10 plants across East Africa, we've invested ahead and smartly to ensure our supply organisation can meet demand effectively. We continue to focus on productivity initiatives to maintain cost efficiency and delivered nearly Kshs 5 billion in productivity savings during the year.

OUR PEOPLE AND CULTURE

Our people remain our greatest asset. We've maintained high levels of employee engagement, as evidenced by our annual survey results. EABL continues to be a net exporter of talent to the rest of Africa, underscoring our commitment to building robust internal capabilities. Our culture of performance, coupled with an emphasis on external curiosity and collaboration, ensures we remain agile and responsive to market dynamics.

LOOKING AHEAD

The consumer and macro-economic environment continues to be challenging with the conditions we saw in FY2023/24 persisting into FY2024/25, yet I remain confident and committed to delivering our growth ambition. Our focus will be on:

1. Driving top-line growth while expanding margins
2. Continuing to invest behind our brands and portfolio
3. Further developing our route to market to enhance availability whilst developing emerging channels and adapting to evolving consumer dynamics
4. Maintaining our cost efficiency through ongoing productivity initiatives
5. Nurturing our people and culture to drive performance and innovation

We see significant opportunities in formalising the consumption of safe alcohol, tapping into the approximately 3 million young people entering legal drinking age annually in East Africa, and increasing female participation in alcohol consumption, which is currently among the lowest in Africa.

We will continue to focus on the consumer as well as improved profitability and returns.

ACKNOWLEDGMENTS

In closing, I would like to express my heartfelt gratitude to our consumers, whose loyalty drives our innovation and growth. My thanks also go to our customers, suppliers, and government stakeholders for their continued support and partnership. I am deeply appreciative of our employees, whose dedication and resilience have been instrumental in navigating the challenges of the past year.

Finally, I extend my thanks to our Board of Directors for their guidance, and to our holding company, Diageo, for their unwavering support.

Despite the uncertainties that lie ahead, I am confident in our strategy, our people, and our ability to deliver sustainable growth and create lasting value for all our stakeholders in the years to come.

UJUMBE WA MKURUGENZI MKUU : KUDUMISHA MAFANIKIO

“ MWAKA HUU UMEKUWA WA MAFANIKIO NA MATATIZO PIA, KILA MOJA IKICHANGIA KATIKA UKUAJI WETU NA PIA KUWA MAFUNZO KWETU KAMA SHIRIKA.”

Tunapoutathmini mwaka wa kifedha wa 2024, nina furaha kuripoti kwamba EABL imeandikisha matokeo mazuri licha ya changamoto kubwa katika mazingira yetu ya kiuchumi. Safari yetu, iliyoanza na kujikwamua kutoka kwa janga la COVID-19, imekuwa ya ukakamavu mkubwa, kubadilika kwendana na majira, na pia kujitolea pakubwa kutimiza malengo yetu ya kimkakati. Mambo haya yanadhihirisha nguvu iliyo katika biashara yetu kuu na pia uwezo wetu wa kukumbatia na kuzitumia vyema fursa zinazojitokeza sokoni.

MATOKEO YA KIFEDHA NA MABADILIKO SOKONI

FY2023/24 umeshuhudia EABL ikiandikisha matokeo ya kuridhisha, ambapo mapato yaliongezeka kwa zaidi ya asilimia kumi, hii kwa kiasi fulani ikichangiwa na ongezeko la kiasi cha mauzo, na pia faida kutokana na uendeshaji wa shughuli zetu kabla ya kujumuisha ukuaji kutokana na ubadilishaji wa fedha za kigeni. Matokeo haya yana maana kubwa ukizingatia mazingira magumu ya uendeshaji shughuli katika masoko yetu muhimu.

Kenya, ambayo huwakilisha 65% ya biashara yetu, ilichangia pakubwa zaidi katika ukuaji, ambapo ilishuhudia ukuaji wa 15% ambao sana ulitokana na kitengo cha bidhaa za thamani na ubora wa juu na pia kitengo cha bidhaa za bei nafuu. Uganda iliandikisha matokeo mazuri nusu ya kwanza ya mwaka, lakini ikakabiliwa na shinikizo nusu ya pili ya mwaka kutokana na kupungua kwa pesa za matumizi ya hiari. Tumeshuhudia kuanza kuimarika tena kwa biashara yetu Tanzania baada ya kudorora FY2022/23.

Shinikizo pana za kiuchumi, kwa mfano ongezeko la gharama ya maisha, zimeathiri uwezo wa wateja kufanya

manunuzi na kuwafanya baadhi kupunguza matumizi katika bidhaa za sekta yetu. Isitoshe, tulishuhudia mtindo wa kushangaza katika vitengo vya bidhaa zetu, ambapo kulikuwa na ukuaji mkubwa katika bidhaa za thamani ya juu na bidhaa za bei nafuu, lakini kupungua katika bidhaa za kitengo cha katikati ambazo ndizo kuu.

Gharama zetu pia ziliathiriwa pakubwa na mabadiliko ya kiwango cha ubadilishanaji wa sarafu za kigeni, hasa Kenya na Tanzania, kuongezeka kwa viwango vya riba, mfumko kwenye mali ghafi tunayotumia viwandani kutokana na kuathiriwa kwa mifumo ya usambazaji. Kadhalika, mvua za El Niño kote katika kanda zilitatiza shughuli zetu, sawa na maandamano yaliyoshuhudiwa nchini Kenya.

MWELEKEO WETU WA KIMKAKATI NA MIKAKATI

Mfumo wetu wa kimkakati bado ni imara na wa manufaa, na unaangazia nguzo kuu ambazo zinachangia kuendeleza biashara yetu:

MSETO WA BIDHAA

Kama mdau anayejishughulisha na vinywaji vya vileo kamili (TBA), tumeendelea kuwekeza mapema kwenye nembo zetu na orodha yetu ya bidhaa ili kuongoza mitindo ya watumiaji wa bidhaa. Katika mwaka huo, tulizindua bidhaa na mifumo mipya viwandani kote katika TBA kwa kuongozwa na watumiaji wa bidhaa. Kuzinduliwa kwa kiwanda kidogo chetu kipya cha kutengenezea bia ni hatua kuu katika kuongeza uwezo wetu wa ubunifu, na ni jambo linalotupatia fursa ya kufanya majaribio na kuchukua hatua kwa wepesi kujibu mahitaji ya wateja.

NJIA YA KUMFIKIA MTUMIAJI

Tumepiga hatua kubwa katika kuimarisha kufikika kwetu na kupanua njia mpya za kusambaza bidhaa zetu. Jukwaa letu la biashara mtandaoni nchini Kenya - [Ke.TheBar.com](https://www.thebar.com), lenye uwezo wa kufikisha bidhaa kwa mteja ndani ya dakika 20, ni mfano wa kujitolea kwetu kutimiza mahitaji ya watumiaji wa bidhaa yanayobadilika..

UENDELEVO NA KUJITOLEA KATIKA ESG

INinajivunia sana uongozi wetu katika mikakati ya Mazingira, Jamii, na Utawala (ESG) kupitia mkakati wetu wa Jamii 2030: Moyo wa Maendeleo. Tunayapa kipaumbele maeneo ambayo yana manufaa makubwa zaidi kwenye matokeo yetu ya kibiashara na pia juhudi zetu za kuhamasisha, ikiwa ni pamoja na kuhamasisha kuhusu

VIWANDA VYETU NA UBORESHAJI

Kwa viwanda vyetu kumi kote Afrika Mashariki, tumewekeza kwa ajili ya siku za usoni, na kwa busara, ili kuhakikisha mfumo wetu wa usambazaji unaweza kukidhi mahitaji ya bidhaa zetu ipasavyo. Tunaendelea kuangazia mikakati ya uzalishaji ili kudhibiti gharama na tulifanikiwa kuokoa takriban Kshs 5 bilioni kupitia kupunguza gharama katika uzalishaji kwa mwaka huo.

WATU WETU NA UTAMADUNI

Watu wetu wanasalia kuwa mali muhimu zaidi kwetu. Tumeendelea kudumisha viwango vya juu vya kuwashirikisha wafanyakazi wetu, kama inavyodhihirishwa katika matokeo ya utafiti wetu wa kila mwaka. EABL inaendelea kuwa mtoaji wa vipaji kwa maeneo mengine Afrika, jambo linaloashiria kujitolea kwetu katika kuboresha uwezo wetu wa ndani. Utamaduni wetu wa matokeo, ukiongeza na msisitizo wetu katika kutaka kujua yanayofanyika nje na pia ushirikiano na wengine, huhakikisha tunasalia wepesi wa kuchukua hatua na kujibu mabadiliko sokoni.

KUTAZAMA MBELE

Watumiaji wa bidhaa, na mazingira pana ya kiuchumi, vimeendelea kuwa na changamoto tele, na hali tuliyokumbana nayo FY2023/24 imeendelea FY2024/25. Hata hivyo, nasalia mwingi wa imani na kujitolea kutimiza ndoto yetu ya ukuaji. Vipaumbele vyetu vitakuwa:

1. Kuendeleza ukuaji wa mapato, na kukua kwa kipimo cha faida
2. Kuendelea kuwekeza katika nembo na bidhaa zetu
3. Kuendelea kustawisha zaidi njia za kufikia soko ili kuboresha upatikanaji wa bidhaa zetu huku tukivumbua njia mpya za kuwafikia wateja na kubadilika sambamba na mahitaji ya
4. Kutumia vyema rasilimali zetu kupitia mikakati inayoendelea ya kuboresha uzalishaji
5. Kuwatunza vyema watu wetu na utamaduni ili kuchochea matokeo mazuri na uvumbuzi

Tunazona fursa kubwa katika kufanya rasmi unywaji salama wa pombe, kuwafikia takriban vijana 3 milioni wanaoingia katika umri wa kuruhusiwa kunywa pombe kisheria kila mwaka Afrika Mashariki, na ongezeko la ushiriki wa wanawake katika matumizi ya pombe, ambapo kwa sasa ni miongoni mwa viwango vya chini mno Afrika.

Tutaendelea kumwagazia mtumiaji wa bidhaa, pamoja na kuimarisha faida na mafao kutoka kwa biashara yetu.

SHUKRANI

Kwa kuhitimisha, ningependa kutoa shukrani zangu za dhati kwa watumiaji wa bidhaa zetu, ambao uaminifu wao umechochea uvumbuzi wetu na ukuaji. Shukrani zangu ziwaendee pia wateja, wasambazaji bidhaa wetu, na serikali wadau kwa usaidizi na ushirikiano wao. Ninawashukuru sana wafanyakazi wetu, ambao kujitolea kwao na ukakamavu wao vimekuwa muhimu sana katika kutusaidia kupitia changamoto za mwaka uliomalizika.

Mwisho kabisa, nitoe shukrani zangu kwa Bodi ya Wakurugenzi kwa uelekezi wao, na kampuni yetu mama, Diageo, kwa usaidizi wao usiobadilika.

Licha ya mashaka yaliyo mbele yetu, nina imani katika mkakati wetu, watu wetu, na uwezo wetu wa kuhakikisha ukuaji endelevu na kuunda thamani ya kudumu kwa wadau wetu wote kwa miaka mingi ijayo.

CFO'S FINANCIAL REVIEW: SUSTAINABLE GROWTH

STRONG PERFORMANCE IN A CHALLENGING OPERATING ENVIRONMENT

EABL delivered strong performance in FY2023/24 across key metrics, despite a challenging macroeconomic context. We achieved notable growth across countries and categories. The volume growth in the beer category helped drive scale in the business, as well as improve our fixed costs absorption and our cash flow. Additionally, our premium spirits and RTDs segments grew faster than average, whilst our strategic pricing and delivery against productivity initiatives helped mitigate the adverse impact of currency fluctuations and rising interest rates on our performance.

PERFORMANCE REVIEW

Our net sales for the year amounted to Kshs 124.1 billion (2023: Kshs 109.6 billion), which represents a 13% increase from FY23 with strong performance in the spirits category observing a 10% growth, while the beer segment experienced growth of 12%. Our sales increased in all countries by 15% in Kenya, 12% in Uganda and 9% in Tanzania. Kenya remains our largest market, with 65% of sales, followed by Uganda contributing 21% and Tanzania 14%.

Operating profit excluding foreign exchange losses grew by 10% to Kshs 28.8 billion as pricing and productivity mitigated cost inflation.

Our Profit before Tax was adversely affected by a 49% increase in Net Finance Costs. Although our borrowings reduced by 13%, cushioning us against the full impact, the increase in our effective cost of debt from 12.5% in FY2023 to 15.1% in FY2024 still had a material impact on our results. Notably, we had a slower increase in our cost of funding in comparison to government T-Bills because of our mix of debt. Our results were further impacted by significant currency depreciation in Kenya and Tanzania. The combined impact of these factors resulted in a 10% year-on-year reduction in our Profit before Tax, to Kshs 16.8 billion.

The Group's profit after tax amounted to Kshs 10.9 billion. This reflects a decline of 12% from the previous year.

CURRENT RATIO

Current ratio stood at x1.15 (2023: x1.04), meeting our regulatory requirement, majorly driven by reduction in short term debt as well as improved inventory management.

(CMA: >1x)

CURRENT RATIO

DEBT

Total debt for the Group reduced by Kshs 11 billion from Kshs 59 billion as at 30 June 2023, to Kshs 48 billion as at 30 June, 2024 as a result of our debt management strategy through which we facilitated the repayment of certain borrowings to cushion against the impact of rising interest rates

The Net debt reduced from Kshs 51.1 billion as at 30 June 2023, to Kshs 38.8 billion as at 30 June 2024.

The Group closed at a net debt to EBITDA ratio of 1.2 which is within the Board target of 1.5 due to the reduction in borrowings as well as the slightly improved EBITDA.

CAPITAL EXPENDITURE

Capital expenditure for the year dropped to Kshs 7 billion from Kshs 12.9 billion in 2023 (6% of NSV from 12% previously), as the significant projects were completed, and cash preservation prioritised.

CASH FLOW

Growth in cash and cash equivalents generated from operating activities was Kshs 22.1 billion, increasing by Kshs 11 billion over the previous year. This was driven by revenue growth and robust management of working capital.

DIVIDEND

The Board proposes a final dividend of Kshs 6.00 per share, which brings the total dividend to Kshs 7.00 per share. This is 27% higher than the prior year reflecting our commitment to creating value for our diverse stakeholders at EABL.

FINANCIAL OUTLOOK

The macro-economic environment continues to be unpredictable; we continue to leverage on the strength of our core business and our ability to capture market opportunities effectively positions us to respond to and manage any emerging risks.

We are investing ahead and forecast to continue growing our business across our markets and strategic imperatives, whilst continuing to focus on driving productivity gains to deliver consistent, sustainable, long-term growth. TAARIFA YA MKURUGENZI MKUU WA FEDHA (CFO) WA EABL

MATOKEO MAZURI KATIKA MAZINGIRA YENYE CHANGAMOTO

EABL iliandikisha matokeo mazuri FY2023/24 katika viashiria muhimu, licha ya mazingira magumu kiuchumi. Tulishuhudia ukuaji mkubwa katika mataifa na vitengo mbalimbali. Ukuaji wa kiasi cha bidhaa katika kitengo cha bia ulisaidia kutia nguvu ukuaji kwenye biashara, na pia kuboresha matumizi yetu ya gharama isiyosonga na mtiririko wa fedha. Kadhalika, vitengo vya vileo vikali vya thamani ya juu na vinywaji vilivyo tayari kunywewa (RTD) vilikua zaidi ya kiwango cha wastani. Uwekaji bei wetu kwa njia bora na kutimizwa kwa mikakati ya uzalishaji vilisaidia pia kupunguza athari za kushuka kwa thamani ya sarafu na kupanda kwa viwango vya riba kwenye matokeo yetu.

UTATHMINI WA MATOKEO

Mauzo yetu halisi kwa mwaka huo yalifikia Kshs 124.1 bilioni (2023: Kshs 109.6 bilioni), ambayo ni ukuaji wa 13% kutoka F23. Kitengo cha vileo vikali kiliandikisha matokeo mazuri sana na kufikia ukuaji wa 10%, nacho kitengo cha bia kikapata ukuaji wa 12%. Mauzo yetu yaliongezeka katika nchi zote; kwa 15% nchini Kenya, 12% nchini Uganda na 9% nchini Tanzania. Kenya imesalia kuwa soko letu kubwa zaidi, kwa 65% ya mauzo, ikifuatwa na Uganda iliyochangia 21% na Tanzania 14%.

Faida kutoka kwa shughuli zetu kuu, bila kuzingatia hasara iliyotokana na ubadilishanaji wa fedha za kigeni, ilikua kwa 10% hadi Kshs 28.8 bilioni kutokana na maamuzi ya bei na mikakati ya uzalishaji kupunguza athari za mfumko wa bei.

Faida yetu kabla ya ushuru iliathiriwa sana na ongezeko la 49% katika gharama ya mikopo. Ingawa mikopo yetu ilipungua kwa 13%, na kutuinga dhidi ya athari kamili, ongezeko katika gharama halisi ya mikopo yetu kutoka 12.5% katika FY2023 hadi 15.1% katika FY2024 bado liliathiri matokeo yetu. Lakini hata hivyo, ongezeko letu la gharama ya mikopo lilikuwa la kiwango cha chini ukilinganisha na hati za dhamana kutokana na mchanganyiko wetu wa mikopo. Matokeo yetu yaliathiriwa tena zaidi na kushuka kwa thamani ya sarafu Kenya na Tanzania. Kwa pamoja, mambo haya yalichangia kushuka kwa 10% mwaka baada ya mwaka katika faida yetu ya kabla ya ushuru hadi Kshs 16.8 bilioni.

Faida ya Kundi baada ya ushuru ilikuwa Kshs 10.9 bilioni. Hii ni kushuka kwa 12% ukilinganisha na mwaka uliotangulia.

UWIANO WA MALI NA MADENI

Kiwango cha uwiano wa mali na dhima au madeni kilikuwa x1.15 (2023: x1.04), jambo ambalo linatimiza mahitaji ya kisheria, na hili sana lilitokana na kupungua kwa mikopo yetu ya kulipwa katika kipindi kifupi, pamoja na kuboreshwa kwa usimamizi wa ununuzi wa vitu vinavyohitajika katika uzalishaji.

(CMA: >1x)

CURRENT RATIO

MADENI

Kwa jumla, mikopo ya kundi ilishuka kwa Kshs 11 bilioni kutoka Kshs 59 bilioni mnamo 30 Juni 2023, hadi Kshs 48 bilioni kufikia 30 Juni, 2024 kutokana na mkakati wetu wa usimamizi wa madeni, ambao kupitia kwake tuliwezesha kulipwa kwa baadhi ya mikopo ili kujikinga dhidi ya ongezeko la viwango vya riba.

Mikopo halisi ilishuka kutoka Kshs 51.1 bilioni 30 Juni 2023, hadi Kshs 38.8 bilioni kufikia 30 Juni, 2024.

Kundi lilifunga mwaka likiwa na kipimo cha uwiano wa mikopo halisi kwa EBITDA (Mapato kabla ya Riba, Ushuru, Kushuka Thamani na Fedha za kutengwa kulipa Madeni) cha 1.2 ambacho hakijapita lengo la bodi la 1.5. Hii ilitokana na kupunguzwa kwa ukopaji, pamoja na kuimarika kiasi kwa EBITDA.

MATUMIZI YA MITAMBO NA MAJENGO

Matumizi kwenye mitambo, ardhi na majengo kwa mwaka huo, yalishuka hadi Kshs 7 bilioni kutoka Kshs 12.9 bilioni mwaka 2023 (6% ya NSV kutoka 12% awali), kutokana na kukamilishwa kwa miradi mikubwa, na kupewa kipaumbele kwa uhifadhi wa fedha.

MTIRIRIKO WA FEDHA

Ukuaji katika uzalishaji wa pesa taslimu na visawe vyake kutoka kwa shughuli zetu kuu ulikuwa Kshs 22.1 bilioni, ambapo uliongezeka kwa Kshs 11 bilioni ukilinganisha na mwaka uliotangulia. Hili lilichochewa na ukuaji kwenye mapato na usimamizi mwema wa mtaji wa kuendeshea shughuli.

MGAWO WA FAIDA

Bodi inapendekeza mgawo wa faida wa mwisho wa Kshs 6.00 kwa kila hisa, ambao utafikisha jumla ya mgawo wa faida hadi Kshs 7.00 kwa kila hisa. Mgawo huo ni 27% zaidi ya mwaka uliotangulia, jambo linalodhihirisha kujitolea kwetu kuunda thamani kwa wadau wetu mbalimbali katika EABL.

MUSTAKABALI WA KIFEDHA

Mazingira ya kiuchumi kwa jumla yamesalia kuwa ya kutotabirika; tunaendelea kutumia uthabiti wa biashara yetu kuu na uwezo wetu wa kutumia vyema fursa sokoni kujiweka sawa kukabiliana na kudhibiti hatari zozote zinazoibuka.

Tunawekeza mbele na kutabiri yanayoweza kutokea ili kuendelea kukuza biashara yetu katika masoko yote na kutimiza malengo yetu ya kimkakati. Haya yote tukiendelea kuangazia ukuaji wa uzalishaji na kutoa ukuaji usio rudi nyuma na endelevu kwa kipindi kirefu. Tutaendelea kudhibiti hatari zetu za riba na ubadilishanaji wa fedha za kigeni kupitia kuongeza kasi katika upunguzaji wa madeni, kutumia vyema mtaji wa uendeshaji biashara na kukuza mauzo yetu ya nje ya nchi.

STRATEGIC REVIEW: CRAFTING TOMORROW'S BEVERAGES

OUR STRATEGIC APPROACH

Our strategy is underpinned by our passionate desire to serve our consumers with high-quality brands to suit every occasion and economic level, and our desire to deliver long-term shareholder value to our investors.

We are committed to serving the communities in which we operate by ensuring alcohol continues to play a positive role in society as part of a balanced lifestyle.

OUR STRATEGIC IMPERATIVES

Our strategy is delivered through four execution priorities:

BRINGING VIBRANCY AND DYNAMISM TO BEER

Beer is at the core of our business and represents a significant opportunity for our entire value chain. With our rich heritage and extensive presence across East Africa, we are well-positioned to further develop and expand the beer category led by our iconic national brands and the global strength of the Guinness trademark.

We have strategically repositioned our beer offerings to cater to a broader audience of consumers, encompassing not only the traditional lagers, stouts, and malts but also introducing flavoured beer options to appeal to the curious consumer. Drawing from consumer insights on the demand for enriching consumer experiences, we have strategically aligned our beers with relevant occasions, transforming the traditional perception of beer consumption. By pairing our beers with varied occasions, we have expanded the range of times when beer can be enjoyed, creating a more versatile and inclusive drinking experience.

Our beer consumers have a strong affinity for sports and music. In light of this, we actively support and sponsor these cultural spheres with our brands, connecting with our audience through their passions.

EXPLODING MAINSTREAM SPIRITS WITH AN AFFORDABLE AND ASPIRATIONAL PORTFOLIO

The mainstream spirits segment is experiencing rapid growth and demonstrates resilience throughout East Africa, holding the largest market share within the various subcategories of spirits. Our diverse and dynamic portfolio, encompassing a range of price points and spirit types, positions us strongly in this category.

We offer a wide selection of spirits, including vodka, gin, whisky, rum, and liqueur, at affordable price points, enabling access and appeal to a broad spectrum of consumers. This category fosters inclusivity across consumer groups and recruitment to more premium offerings.

Within this category, we proudly house both iconic national brands such as Kenya Cane, Kane Extra, Chrome, and Uganda Waragi, as well as renowned international brands like Black and White and Gilbeys Gin.

WINNING IN PREMIUM

Consumers are increasingly choosing to trade up and “drink better, not more”. They aspire to indulge in brands and categories that embody superior quality, authenticity, and exquisite taste. Our exciting globally leading brands partnered with local jewels across beer and spirits provide accessibility to consumers across the divide allowing them to experience premium and luxury brands. This positions us well to drive growth, accelerate, and expand the category.

SHAPE NEW FRONTIERS BY REACHING NEW CONSUMERS WITHIN TOTAL BEVERAGE ALCOHOL

Expanding the total beverage alcohol market is a key priority for us, by tapping into new and incremental consumer occasions. Our brand, Senator, in Kenya, has played a crucial role by moving consumers away from informal alcohol consumption, positively impacting society. Furthermore, our significant play in the ready-to-drink category enables us to extend beyond the conventional beer and spirits occasions, reaching a wider audience.

We also recognise the growing consumer demand for healthier options and flavours. To meet this need, we have focused on innovation in low-alcohol, no-sugar, and flavoured drinks catering to consumers seeking both healthier alternatives and enhanced taste experiences.

SENATOR KENYA

In the early 2000s, Kenya faced a significant challenge with illicit alcohol consumption, leading to tragic deaths and widespread health issues among the public. Responding to this crisis, Kenya Breweries Limited (KBL) collaborated with the government to find a solution. The result was the launch of Senator Keg beer in 2004, a groundbreaking initiative aimed at providing consumers with a high-quality alcoholic beverage at an affordable price, under regulated conditions.

Senator Keg, crafted using sorghum as its main ingredient, quickly became a beacon of hope. Sorghum, known for its resilience in high temperatures and low rainfall, not only ensures a stable supply chain but also supports climate adaptation for local communities. By promoting sorghum farming, Senator Keg bolstered crop diversification and enhanced food security. This initiative has been particularly beneficial for 47,000 smallholder farmers, predominantly from poor and marginalised areas, who now collectively earn over Kshs 2 billion annually.

Recognising the importance of affordability in combating illicit brews, the government granted excise tax remissions to Senator Keg, enabling broader market penetration. This support not only made the beverage accessible to a wider demographic but also contributed significantly to its popularity.

Today, Senator Keg stands as a testament to success, holding the distinction of being Kenya's largest beer by volume and value share. Globally, it ranks as the second-largest individual beer brand by volume within Diageo, trailing only Guinness. Its impact extends beyond consumption metrics; it is also celebrated as the fourth most beloved brand in Kenya, boasting an equity of 10.6.

This year marks 20 years of Senator's existence and the brand still exemplifies how visionary partnerships, sustainable agriculture, and community empowerment can converge to foster economic growth and social well-being. DIGITAL TRANSFORMATION (CONTINUED)

HOW WE DELIVERED IN FY2023/24: CONSUMER

We see e-commerce as an alternative route to consumers, underpinned by clear consumer value and seamless execution.

Three years ago, we launched our direct to consumer (D2C) platform, ke.thebar.com in Kenya, which we will scale to Uganda and Tanzania in due time. The-Bar plays an integral role within consumers' discovery, exploration, and purchase journeys. This owned platform, is a collaboration with over 30 of our distributors nationwide and over 150 retail customers in Kenya, providing nationwide coverage for at home delivery.

The-Bar Soiree is a unique service that delivers elevated experiences for consumers at home, or during celebration occasions (birthdays, weddings, graduations, corporate functions).

We continue to partner with third-party online retails channels such as Glovo, the leading food delivery app with 57% share of market in Kenya and number one food delivery app in Kenya and Uganda.

Our ambition going forward is for the e-commerce channel to contribute at least 5% of NSV and accelerate our first-party consumer data collection, and activation, increase the visibility of our brands online, and own the end-to-end journey from our discovery through to purchase and retention.

We expanded our digital marketing reach by investing in the right channels online and using technology to unlock fit-for-platform content.

We are investing more than 50% of our Media A&P on digital media, thereby unlocking quality reach, to drive efficiency and effectiveness through data-driven targeting. We implemented an AI-based technology, Creative X, which has radically improved our creative impact, focusing on key digital platforms (Meta, YouTube, DV 360). Our in-house digital marketing agency has employed use of these tools and technology to drive data-driven campaigns that are effective and efficient. The agency continues to deploy social listening tools that are AI-enabled to continuously listen to consumers online and gather signals and insights to inform our marketing campaigns and for brands to engage with consumers in real-time. In the last year we have also worked with over 300 content creators (influencers) across East Africa.

HOW WE DELIVERED IN FY2023/24: CUSTOMER

EDGE 365, our proprietary tool, has benefited both our customers and sales team through data-driven insights, recommendations, and improved performance management.

Diageo One is our proprietary eB2B portal that allows customers access to bespoke insights and recommendations and ability to place orders 24/7. It fully integrates with EDGE 365, and in the 2023/24 financial year, we had over 40k customers registered in East Africa, placing over 600k number of orders contributing to 32% of NSV to the business.

HOW WE DELIVERED IN FY2023/24: PEOPLE, DATA, TECH, CULTURE

Digital acumen across the organisation has been a priority to ensure that everyone at EABL has the relevant digital knowledge, skills, mindset and behaviours to accelerate our ability to engage with consumers, unlocking next generation celebrations and driving incremental growth. We have rolled our Data Literacy Clubs and Communities of Practice, designed to yield useful use cases through better understanding of usage of data.

We piloted an internal generative AI platform in Kenya, Diageo GPT, designed to improve decision-making and enhance creativity across the organisation, as it has the ability to analyse data and provide insights in real-time. A roll out of Diageo GPT across all Diageo markets will happen in early FY2024/25.

We rolled out a Digital Talent Incubator programme, designed to reskill and deploy internal talent with adjacent digital skills into digital specialist roles across the business.

We also laid the foundations and capability on data governance, and in FY2024/25, we will roll out Voyager, a proprietary platform that will transform data governance across the business through data validation and harmonised data sets.

OUR ROUTE TO CONSUMER

The seamless journey of our amazing products, from the brewery to the consumer, delivers elevated experiences as they engage with the various occasions.

DISTRIBUTOR PARTNERS

We have a robust network of over 200 distributors, employing over 4,000 people across East Africa. To aid delivery of our brands to the distributors, we have partnered with the best third-party logistics partners to ensure efficient shelf availability for our distributors.

Our distributors are well equipped to ensure that our retailers and outlets get our products on demand as and when they need them. They also deliver to consumers who order through our direct-to-consumer platform – <https://ke.thebar.com/>

Our highly capable sales reps and distributor sales teams benefit from our digital tools such as EDGE 365 DMS, which allows our distributor to manage selling and inventory. The data and analytics harnessed from the tools that allows them to deliver world-class everyday execution and elevated shopping experiences with our brands to our consumers, driven by data analytics.

We have leveraged on our digital tools, especially Diageo One, to drive efficiencies and accelerate sales. 20% of our revenue was ordered through Diageo One, which reflects growth of 163% from the previous year.

RETAIL OUTLETS

We have a clear outlet segmentation that allows us drive prioritisation and smart investment. They are segmented into three distinct channels – on-premises, off-premises, and emerging channels – to ensure that we provide them with customised solutions that take into the account the market dynamics while delivering elevated experiences to our consumers responsibly.

Over 600,000 people are directly employed by the retail outlets that we partner with. We partner with retailers and outlet owners to grow value together with the consumer, while ensuring sustainable business growth.

CONSUMERS

We have built an agile, resilient, and effective strong organisation to partner with distributors and retail. This helps bring our brands to life as we strive to deliver elevated and memorable experiences for our consumers, for every occasion, responsibly.

We have adapted our investment strategy to seize the fast growing direct-to-consumer channel opportunity by investing in our owned e-commerce platform – <https://ke.thebar.com/> – and have also partnered with top e-commerce platforms.

SUSTAINABILITY IN ACTION

At EABL, we view sustainability as key to driving our long-term financial performance and resilience as a business. Reporting progress against our non-financial performance targets through a structured framework is part of our critical operational functions and we aim to be transparent and accountable to our stakeholders.

As an organisation, we have adopted a robust sustainability strategy – Society 2030: Spirit of Progress. It is our 10-year action plan to help create a more inclusive and sustainable world. Society 2030: Spirit of Progress reflects the most material issues affecting our company, our people, our brands, our suppliers, and our communities.

Our strategic priorities are to:

1. Promote Positive Drinking
2. Champion Inclusion and Diversity, and
3. Pioneer Grain-to-Glass Sustainability

These priorities are anchored on “Doing Business the Right Way”, which is a governance pillar that underpins everything that we do as a business.

Our plan includes various ambitious targets aligned to the United Nations’ Sustainable Development Goals and for each target. We have designed a series of distinct key performance indicators to ensure that our progress against Society 2030: Spirit of Progress is justifiably measured, evaluated, and reported.

OUR STRATEGIC BLEND (CONTINUED)

OUR STRATEGIC ENABLERS (CONTINUED) PROMOTE POSITIVE DRINKING

We want to change the way the world drinks for the better. That means promoting moderation and continuing to address the harmful use of alcohol by changing attitudes and expanding our programmes to tackle underage drinking, drink driving and binge drinking.

Promoting positive drinking is central to our “Society 2030: Spirit of Progress” sustainability strategy. As a responsible company, EABL wants to make a significant and sustainable impact on creating a more positive role for alcohol in society and making responsible drinking a valued, enjoyable part of life. We are proud of our brands and know the best way to enjoy them is in moderation.

Wrong Side Of The Road campaign	SMASHED	DRINKiQ
This is our digital learning experience to help as many people as possible understand the consequences of drink-driving. It uses real-life experiences to teach consumers about the dangers of drunk-driving. It involves consumers visiting the platform to have a virtual conversation with drunk-driving survivors.	SMASHED is an award-winning alcohol education programme, developed by Collinwood Learning and implemented across our markets. It is an inspiring live theatre experience touring schools with interactive workshops for students, resources for teachers and a parent’s guide. The programme actively measures changed attitudes in young people who participate through pre and post evaluation surveys.	Our enhanced DRINKiQ.com platform is a dedicated responsible drinking tool that provides facts about alcohol, the effects of drinking on the body and mind, and the impact of harmful drinking on individuals and society.

This year, across our markets we scaled our activations and interventions geared towards promoting positive drinking practices. UBL hosted a number of activations including the 2023 Nyege Nyege Festival where we sensitised the public on our Wrong Side of the Road campaign and DRINKiQ – our digital campaign. In addition, at the end of 2023, UBL launched the “Tokisusa Campaign” to scale much needed responsible drinking education during the festive season. The campaign was launched in partnership with Nation Media Group (NMG) and ran for three months on NTV Uganda and our Red Card responsible drinking platforms.

KBL launched a new digital campaign titled “Usichome”. Stepping away from the norm, Usichome sought to inspire behaviour change through humour by highlighting the potentially embarrassing situations people could find themselves in if they didn’t follow DRINKiQ tips. Usichome reached six million people on social media and sparked a conversation around responsible drinking.

SMASHED in Tanzania covered 16,285 secondary school students from 15 schools in Dar es Salaam and Tanga. In a groundbreaking collaboration with the Tanzanian Government and the implementing partner, we initiated the SMASHED programme in the North region of

Tanzania. Here, the prevalence of alcohol consumption among secondary school students aged 15 and above ranged from 12.9% among girls to a staggering 63.9% among boys. These figures underscore the urgent need for action, action that we continue to spearhead.

On our Wrong Side Of The Road programme, Serengeti Breweries Limited (SBL) proudly launched the “Inawezekana” campaign which translates to “It Is Possible,” serving as a call to action and a testament to our continuous commitment to change the way the world drinks for the better. Through our flagship Brand Serengeti Premium Lager, we were pleased to partner with the National Traffic Police of Tanzania for “Usalama Barabarani Jamii Cup”, an event deeply entrenched in its support for the motorcycle riding community aimed at instilling responsible drinking practices and elevating road safety standards from grassroots levels to the national stage.

The motorcycle drivers assumed central roles, receiving education on the dangers of drinking and driving through SBL’s online platform. The training underscored our broader commitment: instilling responsibility and raising the bar on road safety standards among drivers.

CHAMPION INCLUSION AND DIVERSITY

We champion Inclusion and Diversity across our business: from the way we attract, develop, retain and recruit the very best talent, to the way we source services and progressively portray diversity through our brands. We are determined to remove barriers, while having a positive impact on our partners, suppliers and communities.

We believe that the most inclusive and diverse culture makes for a better business and a better world. We have been passionate about changing the narrative around the underrepresentation of youth, women and people living with disabilities in employment and supply chains across our business and have made empowering them a business priority.

Strengthening our female talent pipeline	Creating Inclusive Communities	Learning for Life
We focus on strengthening our female leadership pipeline and investing in the next generation of female leaders, particularly across areas where women have historically been under-represented, including commercial, general management and supply roles.	We champion inclusion and diversity in the communities connected to our production sites and sourcing areas. We provide Water Sanitation and Hygiene (WASH) to communities and we also facilitate community dialogues to tackle social norms that prevent women's equal access to and agency over WASH. This year more than 50% of WASH committee members were women.	Learning for Life is our business and hospitality skills programme for those seeking employment in the hospitality industry, but who may have faced barriers to education and employment in their lives. It provides equal access to business and hospitality skills and resources to increase participants' employability, improve livelihoods and support a thriving hospitality sector that works for all.

This year UBL kicked off a campaign to profile female employees under the weekly Woman Crush Wednesday (WCW) postings. Additionally, UBL shared a video series highlighting our newly launched production line that is predominantly controlled by women (75%). The video discusses the unique challenges faced by women in their STEM careers, motivating young women to shoot for the top. UBL also kicked off the 2024 Diageo Bar Academy sessions in March with a mission of training 44 key accounts within Kampala and reaching 450 trained staff. KBL launched a partnership with African Initiatives for Relief and Development (AIRD), to offer a life-skills development curriculum that includes courses on budgeting, time management, and responsible drinking, among others. The project aims to empower and educate youth, women, and people with disabilities who don't have an educational background, with skills that can help them support themselves financially and provide a living. The Training took place from December 2023 to January 2024 in Kisumu, Mombasa, Molo, Nairobi, Machakos, Embu, Murang'a, and Makueni. 9,184 beneficiaries were trained, and some have found gainful employment in the hospitality sector. The program's beneficiaries have also received internships or on-the-job training, and many of them have ventured into new businesses following the skills and knowledge acquired from the training.

In Tanzania we scaled our various interventions. In a bid to promote inclusive development, SBL joined hands with Sightsavers on a disability inclusive sorghum supply chain pilot project in F24. The pilot initiative encompasses agronomy training, agribusiness training, and the inclusion of women and people with disabilities.

The partnership brought together other key partners including the Syngenta Foundation East Africa and organisations of persons with disabilities and CARE International to train 216 women and men on agronomy, agribusiness, and inclusive training with the aim to mobilise and support farmers to join SBL's supply chain.

SBL also continued to partner with the Ministry of Agriculture and the Ministry of Education in the award winning Kilimo Viwanda Scholarship Program. Since its inception in 2020, the Kilimo Viwanda Scholarship program has benefited over 300 students in regions such as Kilimanjaro, Iringa, Kagera, and Coastal areas.

This year, we proudly continued with this journey by awarding scholarships to 65 new students, marking our steadfast dedication to cultivating the next generation of agricultural experts.

OUR STRATEGIC BLEND (CONTINUED)

OUR STRATEGIC ENABLERS (CONTINUED) PIONEER GRAIN-TO-GLASS SUSTAINABILITY

We have always understood that for our business to be sustainable, it needs to create enduring value – for us and for those around us. Our “Society 2030: Spirit of Progress” ambitions take us further than ever in our drive to address poverty, inequality, climate change, water stress, biodiversity loss and other challenges that threaten the environment and the prosperity of communities

Our strategic priority to “Pioneer Grain to Glass Sustainability” acknowledges the breadth of the environmental and social consequences of a changing climate as well as our dependencies on nature and people. Our strategy recognises how interlinked these issues are and how deeply connected and dependent our value chain is on nature, broader society and its evolving expectations. We continue to learn and evolve our approach, aiming to take action where it has the most material impact.

Upon review of our Sustainability Strategy, our targets on this pillar are now mapped against our most material issues, water and carbon, and reflect the complexity of the risks and opportunities we face. By taking action and delivering on our commitments, we are taking steps to make our business more resilient while preserving our licence to operate and grow.

Our Pathway to Net Zero

We know that our planet needs significant, science-based action to create a sustainable future. We have set ourselves a bold target to reach net zero carbon in our Scope I and II emissions across our operations by 2030. We have also committed to reduce our Scope III emissions by 50% by 2030. We acknowledge that realising this scale of transformation will require investment and partnership, by working with our suppliers to innovate in partnering for systemic change and delivering decarbonisation solutions in areas outside our direct control.

In the 2022/23 financial year, UBL scaled its activities in enhancing water and sanitation for local communities. UBL handed over 10 boreholes worth UGX 307 million (USD 82K) in the Teso region districts of Kapelebyong, Katakwi and Bukedea. These boreholes will serve over 4,800 people in these districts.

KBL also launched new partnerships and investments to scale our WASH projects. We provided support to Ngara Girls Secondary School which has been facing challenges due to a severe water shortage. The unreliable piped water supply makes it difficult for the students to maintain proper hygiene and posed challenges in menstrual hygiene management, particularly in an all-girls school context.

To address this pressing issue, the EABL Foundation allocated Kshs 7.5 million (USD 59K) to fund the drilling of a borehole, the installation of a solar-powered pump, and the raising of an elevated steel tank.

This significant investment has played a pivotal role in ensuring sustainable and reliable water for Ngara Girls School. The project benefited about 1,400 students, 85 teachers, 45 support staff, and 55 dependents.

Similarly, KBL held a pre-world water day corporate breakfast to launch its Kshs 60 million (USD 479k) investment in a multi-stakeholder Basin Champion project at the Upper Tana water shed.

Preserve Water for Life

Water is our most precious resource. Our strategy is based on best practice water stewardship in three areas – water accessibility, availability and quality. We are also working with strategic partners to better manage water and to lead collective action in critical water basins.

The breakfast meeting served as a platform for KBL to emphasise its water stewardship ambition by supporting basin-wide, multi-stakeholder collaboration to address broader systematic water risks in the Upper Tana water shed. The event brought together over 100 stakeholders from various sectors including government officials, private sector representatives, NGOs, corporate institutions and KBL’s executives. The event provided a platform for dynamic conversations surrounding the interplay between water sustainability, corporate responsibility, and government collaboration to be held.

This year, SBL in its continued efforts to address water challenges and provide clean and safe water to Tanzanian communities committed Tshs 195.3 million (USD 78K) to construct a water borehole in Magu District, Mwanza region.

The project which is being implemented in partnership with Africai and the local government in the district, commenced in December 2023 and is now completed and ready to be commissioned in June with a capacity to hold 87,000 cubic meters of water and provide clean water to 11,000 men, women, and children of Magu district.

Commenced in December 2023 and commissioned in June this year, the project was implemented in partnership with Africai and the local government in the district. It has a capacity to hold 87,000 cubic meters of water and provides clean water to 11,000 individuals at Magu district.

SUPPLY FOOTPRINT

We strive to be an efficient organisation that consistently provides innovative and high-quality products to the East African market and beyond. This is achieved through customer centric and progressive strategic plans anchored on partnering with communities to enhance local sourcing, implementing initiatives that enable sustainable manufacturing and distribution, as well as programmes focused on people that drive enhance employee productivity, inclusion, and diversity.

The success in delivery by the supply operations is anchored on the key pillars of health and safety, sustainability, innovation, quality, and cost effectiveness, underpinned by the value we have for our people.

HEALTH AND SAFETY

Health, Safety, and Welfare of our employees, contractors, and visitors has always been the priority to the business, with managements' commitment in ensuring that while in any of our premises all our employees and stakeholders remain safe and go home safe. All these are reinforced through our occupational health and safety policies, compliance to all occupational health and safety legislations as well as the Global Risk Management Standards. These are all made possible in accordance with the Diageo zero harm agenda that ensures that our processes remain safe and all activities are safely conducted.

To bring the above commitment to life, we have embarked on the following improvements:

- We have run various workshops on Diageo Life Saving rules programme across the business with the key agenda being raising awareness on the 11 Life Saving Rules across our organisation and as a result mitigate all kind of severe and fatal potential accidents.
- On-site traffic safety enhancement through segregation of vehicle and pedestrian paths.
- Mental health awareness sessions across the business as well as a continued physical health checks programme.
- Continued partnership with our transporters to improve road safety through audits and embedding safety controls in our contract.

SUSTAINABILITY

EABL Supply has made great strides in delivering Diageo's Society 2030 environmental goals. Society 2030 strategy was launched as part of EABL's commitment to creating an inclusive and sustainable business by reducing carbon footprint to zero in all sites by 2030. By addressing key social, environmental, and economic challenges, EABL supply aims to make a positive impact on society while ensuring sustainable growth and resilience in its operations. Key projects that have been launched towards this journey include:

Project Rudisha: a sustainability project launched in Kenya aimed at converting one-way glass for locally produced mainstream spirits to a best-in-class returnable glass model by reducing waste to landfill and carbon emissions (about 4.6 million tonnes), with additional benefits on reduction of Cost of Goods (COGs). This project has made remarkable strides whereby KBL has managed to collect over 17 million bottles that would have otherwise ended up in a waste landfill. This has yielded cost savings of \$0.97 million (Kshs 125 million) across the value chain by creating new revenue streams for distributors amounting to roughly Kshs 32 million and creating about 400 employment opportunities for youth and women.

Green energy initiatives (Biomass): KBL Supply has invested \$31.81 million in two Biomass Boilers at the KBL sites of Kisumu and Tusker replacing fossil fuel used in steam generation. These biomass plants are the first set of boilers in Diageo Africa and are significant investments in renewable energy that highlight our dedication to reducing our carbon footprint and promoting sustainable business practices. The boilers enhance energy efficiency and yield thermal energy cost savings of \$6.4 million as well as supporting local economies where biofuels are sourced from local farmers. Additionally, the biomass plants contribute to better waste management, improved air quality, and the promotion of sustainable agricultural practices and dedication to reducing our carbon footprint, mitigating climate change, and fostering community development.

Wastewater Management: EABL Supply has implemented a comprehensive water management approach to reduce water usage across all its sites given that EABL is a water-stressed site. This is done by continuous process optimisation to minimise water usage per unit of production and undertaking regular water usage audits to identify wastage opportunities. In Kenya, this investment totalling to \$8 million has achieved impressive water recovery rates within the two sites of 40% and 65%, respectively. The recovered water is then treated and reused onsite for general operations and cleaning purposes, significantly reducing KBL's freshwater demand. In UBL, the site has through a myriad of Engineering interventions managed to reduce water usage from 2.87L/L at the close of F23 to 2.33L/L consistently.

MICROBREWERY AND INNOVATIONS

The microbrewery plant is the latest addition to the KBL Supply manufacturing facilities. This facility is set to become a global innovation hub, dedicated to small batch production, and fostering creativity. It stands as a testament to KBL Supply's rich history and legacy, offering a premium brand experience. Production at the plant commenced in November 2023 and the primary goal of this site was to address the growing demand for draught beer and to create a vibrant venue where consumers can gather, engage, and sample our innovative brews.

The microbrewery has already produced innovative products such as Manyatta Cider variants, Tusker Ndimu, and Nairobi Summer with further innovations underway. This facility not only enhances our production capabilities but also reinforces our commitment to delivering exceptional experiences and maintaining our heritage of quality and excellence.

PEOPLE

Given that people are at the heart of everything we do, it goes without saying that interventions to grow our people as well as continuously improve our culture is a must do. Our people are at the heart of what we do. Emphasis has been placed on capability building for our technical teams focusing on functional and leadership development. This is a fundamental enabler for our business to be future fit and best in class for achieving productivity, guaranteeing quality products to our consumers, and embracing supply chain technologies. To this end EABL prides itself in the below:

Diversity Inclusion and Diversity (DEI): In line with the Diageo DEI agenda, EABL has made significant strides by ensuring female apprentices in STEM are enrolled in the apprentice programs; additionally, we have beer and spirit lines in both Uganda and Kenya predominantly run by female staff. Twelve People With Disabilities (PWD) were enrolled for a one-year internship in various areas of the business to help them break barriers to formal employment.

Professionalisation of brewing and packaging: We have enrolled our teams to the renowned Institute of Brewing and Distilling (IBD). We have rolled out seven habits and Impact Coaching training to all L4 and L5 management teams to improve managers productivity, communication and enhance relationships to get the best out of their teams.

Recognition and Awards: EABL supply continues to be celebrated locally and globally. The EABL Supply Team was recognised for initiatives undertaken on sustainability that aim to reduce environmental impacts from energy and water usage. At the 20th Annual Energy Management Awards (EMA) held on 20 May 2024, at the Safari Park Hotel, EABL received several prestigious awards, reflecting our commitment to energy efficiency and sustainability. This year's theme, "Celebrating 20 Years of Energy Management & Sustainability," highlighted our achievements in the field.

- Overall Energy Management Award 2024 - KBL Nairobi
- Sustained High Performance Award (1st Runner-up) - KBL Nairobi
- Water Efficiency Award (Winner) - KBL Kisumu
- Renewable Energy Award (Winner) - KBL Kisumu
- Electrical Energy Savings Award (1st Runner-up) - KBL Nairobi
- Best Energy Management Team (Runner-up) - KBL Nairobi

OUR STRATEGIC BLEND (CONTINUED)

OUR STRATEGIC ENABLERS (CONTINUED)

OUR PEOPLE (CONTINUED)

TALENT AND CAPABILITY (CONTINUED)

1. FUTURE LEADERS AND STEM APPRENTICESHIP PROGRAMME

These are transformative early career programmes and are a key pillar of our talent strategy designed to build the critical skills for the future.

The future leaders programme is a two-year accelerated development programme that seeks to develop a sustainable pool for future senior leaders while the STEM apprenticeship programme seeks to build our pipeline for entry-level STEM roles.

The FY2023/24 Africa markets graduates cohort consists of 13 employees across four functions: Marketing, Supply, Finance and Commercial, in three different markets (Kenya, Uganda, Tanzania), while the STEM programme has a total of 10 apprentices. These programmes are also critical in maximising the contributions of a diverse workforce that supports our I&D ambition of achieving 50:50 gender representation by 2030.

2. CAPABILITY PROGRAMMES

ADVANCED LEADERSHIP & CORE LEADERSHIP PROGRAMME

We continue to fuel sustainable growth by empowering employees and managers with enhanced capabilities. We have a unique learning journey designed for senior leaders to accelerate their career. Twelve of our senior leaders recently graduated from the Strathmore Advanced Leadership Programme and we have four leaders currently on the programme.

SBL has also collaborated with Strathmore Business School to reinforce leadership competencies across all levels, benefiting 55-line managers, 30 members of the extended leadership team and 20 critical resources. These interventions ensure equitable knowledge and skill levels in managing people, sustaining confidence to compete globally.

Additionally, we have strengthened both demand and supply on frontline capabilities through technical skills training from the shopfloor to managerial roles. These initiatives have empowered employees, driving up productivity and performance.

CRAFT MY CAREER AFRICA SERIES

As we create a focus on ownership and building an enabling environment at EABL, we empower our people to shape their futures and careers. In the 2023/24 financial year, we launched a career capability series dubbed "Craft My Career" which is designed to help employees navigate their career paths and explore growth opportunities in Diageo. The sessions built the capability of 48% of employees and 65% of the line managers in our workforce.

Career progression remains a core enabler for higher talent retention and engagement. Learning new skills and gaining varied experiences leads to tangible rewards, recognition and career progression at EABL. We want to let our people experience open and transparent conversations about their career and are clear on how they can grow.

PEOPLE MANAGERS COACHING PROGRAMME

Coaching is a fundamental driver of employee engagement, performance, and growth. By prioritising coaching as a strategic initiative, EABL demonstrates its unwavering commitment to empowering its employees to reach their full potential and drive the Company forward in pursuit of excellence.

In the 2023/24 financial year, 82% of the line managers at EABL underwent a thorough training session around coaching underpinned by the values "See, Hear, Speak, Act". EABL recognises this truth and has embraced coaching as a cornerstone of the organisational culture. Coaching is of paramount importance as it cultivates talent, promotes continuous learning, fosters accountability, and builds resilience. Through personalised guidance and feedback, employees are empowered to excel in their roles and contribute meaningfully to the Company's success.

3. INCLUSION AND DIVERSITY

We strive to maximise the contributions of a diverse workforce while building and enhancing an inclusive culture that is consistent with our purpose and that supports the achievement of the performance ambition. We are intentional in ensuring that our policies, processes, and guidelines drive and enable inclusion and diversity, and support our employees at all stages of life, thus enabling a great work life integration.

Some of the notable policies and guidelines are the Family Leave Policy, Sick Leave policy, Fertility guidelines, Domestic Family Abuse guidelines, Pregnancy Loss guidelines, and Menopause guidelines, among others.

This year, we have received a number of recognitions across our markets for the milestones that we have achieved on Inclusion and Diversity. EABL was recognised as best employer 2024 by Women on Board Network.

UBL was awarded a Gold seal by the UNDP and Private Sector Foundation (PSFU) in the Gender Equality Seal certification in recognition of best practices on gender equality and additionally, recognised by the National Union of Disabled Persons of Uganda (NUDIPU), for the strides UBL has made in promoting Disability Inclusion.

Kenya has enhanced the medical benefit to include an infertility cover. This expansion of coverage aims to provide support and assistance to male and female colleagues who may require such treatment.

CULTURE AND ENGAGEMENT

1. OUR REFRESHED VALUES

We have a strong cultural foundation, with a set of values and behaviours that are our cornerstone and have served us well. This is reflected in the high employee engagement scores we receive each year. In FY2023/24, Agility and Speed has been called out as one of our key strategic imperatives to win differently in the current business context. To create these cultural shifts on speed and agility, we have refreshed our values and identified key behaviours to dial up. We have sharpened the definitions of the four values to ensure their relevance now and for the future.

These values are our North Star that guide how we act and make decisions:

- Value Each Other
- Be Better
- Passionate about Customers and Consumers
- Proud of What We Do

2. EMPLOYEE RESOURCE GROUPS

Our Employee Resource Groups continue to be a rich source to driving inclusive culture and creating a greater sense of belonging within the organisation. We have the Spirited Women network across the three countries, Men at Work networks in Kenya, and Legends in Uganda. The guiding strategy for the resource groups is underpinned by three pillars: Empowering Women/Men in the Business (career support), Empowering Women/Men in the Community (supporting communities), Empowering Women/Men Total Wellbeing (flexible working, financial, mental, social and physical). The networks host regular networking events, hosted by a mix of internal and external thought leaders.

3. WELL-BEING PHILOSOPHY

Our wellness programmes look after our employees, providing a guiding framework that supports our people in their daily lives, giving advice to people managers as they lead teams. We have upweighted our global well-being support with partnerships from platforms like Unmind – Supporting mental health and well-being, Balance a Menopause App, and nudge proving insights and tips on financial well-being. Through our global well-being champion networks, we share best practice to help embed our philosophy. This year we sought opportunities to normalise conversations around mental health and financial, physical, and social well-being.

In FY2023/24, we have revamped our medical benefit offering to include a cover for infertility-related treatments within the in-patient offering. This expansion of coverage demonstrates our commitment to giving a wholesome experience to our employees.

EMPLOYER BRANDING

We have ramped up our efforts to connect with future workforce by forging partnerships with institutions like Jomo Kenyatta University of Agriculture and Technology (JKUAT) for STEM Open Days. These events allow us to engage with students interested in manufacturing careers, offering them insights into the opportunities within our industry. During our inaugural STEM Day in partnership with JKUAT, we hosted a competition, resulting in five deserving winners securing internship opportunities at EABL, further fostering talent development and growth.

Additionally, on 9 February 2024, we commemorated the International Day of Women and Girls in Science (officially observed on 11 February 2024) by welcoming female students from esteemed institutions including Jomo Kenyatta University of Agriculture and Technology (JKUAT), The University of Nairobi (UoN), United States International University-Africa (USIU-Africa), and The Technical University of Kenya (TU-K).

This event aimed to ignite inspiration and empowerment among the next generation of women in science. The agenda featured a brewery visit led by women thriving in STEM careers within our organisation, followed by an insightful panel discussion where these professionals shared their career trajectories and wisdom. The day concluded with a networking cocktail session, facilitating invaluable connections between students and STEM professionals from our company.

MATERIAL MATTERS: WHAT'S IN OUR MIX

In late 2020, we carried out an in-depth materiality assessment to determine the Environmental, Social and Governance issues that matter most to our business and stakeholders. Following in the footsteps of Diageo, the materiality assessment looked at external trends shaping EABL's operating environment in the region and how we can most effectively align EABL's work with the UN's Sustainable Development Goals.

We participated in Diageo's 2019 Materiality Assessment, leading to the Society 2030: Spirit of Progress Plan. Our analysis confirmed the importance of several key themes: promoting positive drinking by encouraging moderation and tackling the harmful use of alcohol; championing water stewardship and decarbonisation

as part of Pioneering Sustainability from Grain to Glass; and Championing Inclusion and Diversity, both within our business and in the communities where we live, work, source, and sell.

Our own materiality assessment supplemented Society 2030 and helped us to define our independent reporting scope. In 2022, we refined our materiality assessment to include the Nairobi Securities Exchange (NSE) Mandatory Disclosures. We comprehensively described our management of material topics, alongside the relevant indicators (Performance against Society 2030) – including emissions – in our 2022 Sustainability Report, which is available on our website.

HOW WE DETERMINE OUR MATERIAL ISSUES

We interviewed many internal and external stakeholders, analysing their interests and concerns as well as the risks and opportunities for EABL to ensure that our operations focus on achieving the greatest impact and tackling the issues that matter the most. Data for our comprehensive materiality analysis process was collected using a series of participative, qualitative and quantitative methods, including questionnaires, one-on-one interviews, and focus group discussions. We applied a snowballing sampling technique to support our stakeholder mapping exercise, and identify additional stakeholders across our value chain.

The analysis identified 85 material issues, which were then organised into 11 categories. The findings were collated, organised, and plotted on a materiality matrix, with each issue positioned relative to the degree of internal and external stakeholder interest and perceived business impact. The results emphasise the priority given to issues of occupational health and safety, compliance, and ethics, and the primacy of water and energy use by our business and stakeholders.

RISK MANAGEMENT: FILTERING OUT THREATS, TAPPING OPPORTUNITIES

DOING BUSINESS, THE RIGHT WAY

At EABL we say Business Integrity is everyone's business. We aim to do business in the right way every day, everywhere. This is about making sure our people, third parties and suppliers demonstrate integrity, living our values, and behaving in an ethical way that underpins our Code of Business Conduct (CoBC). We expect everyone who works for us and alongside us to uphold our CoBC and stand up for what is right.

POLICY TRAINING

In line with EABL's ambition to be the best performing, most trusted and respected consumer products company in the region, the Business Integrity Team has continued to embed our Code of Business Conduct in the fabric of our ways of working.

Annual mandatory training is delivered to all EABL employees and contractors in an easily accessible e-learning format, with classroom training delivered to those employees who do not have regular access to a computer. 96% of employees completed this training. Regular training, awareness and communication programmes as well as compliance monitoring mechanisms are in place to ensure that all relevant stakeholders remain aware of and continue to comply with the provisions of our CoBC and policies. As part of educating employees further on various aspects of the CoBC, the Company in March 2024 held a series of mandatory trainings for targeted staff and third-party contractors across the three businesses under the banner Pathway of Pride (PoP). The theme for this year was "Business integrity is everyone's business" and focused on dignity at work, management of conflicts of interest and Speak Up. 2,261 employees and contractors attended the PoP week across the three businesses.

STANDING UP FOR HUMAN RIGHTS

Treating each other with dignity and respect is an important part of doing business the right way. To reinforce this we increased awareness of our Dignity at Work and SpeakUp policies across the organisation through the annual mandatory training and the Pathway of Pride week.

We want people who work for us or with us to feel that they are treated fairly and with respect. This means working hard to make sure we don't infringe their human rights, and that we are not complicit with anyone else who does.

We seek to build credibility and trust by expecting everyone who works with us to adopt our standards. Our policies cover our responsibilities to protect the human rights of everyone working in our direct operations, our value chain and communities. They are in line with internationally recognised laws, regulations and guidelines including the

UN Guiding Principles on Business and Human Rights, and the International Labor Organization's Declaration on Fundamental Principles and Rights at Work.

At EABL we focus on salient human rights issues such as child labour risks, labour standards for contract workers and sexual harassment in the hospitality sector. In response, we created awareness programmes on child labour and modern slavery, conducted an independent review of contract labour and developed standards and training to protect our brand promoters.

BRAND PROMOTER STANDARD

At EABL Brand Promoters or Ambassadors play an important role promoting our brand portfolio to customers and consumers at the point of sale and at events. This Brand Promoter Standard establishes the principles and guidelines for the deployment of Brand Promoters. It is based on our values and our commitment to respect and protect the human rights of all our employees, and those who work with us. In particular, our commitment to treat people with respect and to ensure that they are safe in their working environment.

We recognise our responsibility to protect the rights of our Brand Promoters. We strive to provide a harassment-free environment that promotes openness, teamwork, and trust. We will not tolerate our people being subject to physical, sexual, racial, psychological, verbal, or any other form of harassment, bullying or abuse. In order to achieve this, we expect our third-party suppliers, business partners, as well as the outlets that we partner with, to hold themselves to the same standard.

We have a zero-tolerance approach with respect to abuse and sexual harassment of Brand Promoters as stated in our Global Human Rights Policy and Partnering with Suppliers Standard. We expect our third-party suppliers, business partners and outlet owners to provide a safe and respectful environment for Brand Promoters, including their own zero-tolerance measures.

Before starting work as a Brand Promoter, mandatory training must be completed. Where Brand Promoters are employed by third parties or our business partners, EABL provides them with information and training materials. This training includes all key aspects of the Brand Promoter Standard.

ETHICAL SOURCING

To enhance our approach to responsible sourcing we have begun screening for human rights with higher-risk potential suppliers before onboarding. This helps us make more informed decisions on human rights risks and gives us the chance to assess and mitigate the salient issues before we contract with a supplier. We have also extended our supplier requirements on responsible sourcing to our licensed manufacturers locally and globally.

FILTERING OUT THREATS, TAPPING OPPORTUNITIES (CONTINUED)

RISK MANAGEMENT: FILTERING OUT THREATS, TAPPING OPPORTUNITIES (CONTINUED)

MANAGING THIRD-PARTY RISKS

Business integrity is also vital in our network of relationships with third parties. Our Know Your Business Partner (KYBP) programme helps us screen for potential risks and be certain about the true identity. Through our Know Your Business Partner (KYBP) Standard we assess all our business partners for potential economic sanctions and compliance risks such as bribery and corruption, money laundering, facilitation of tax evasion, data privacy or other reputational red flags. We carry out additional due diligence processes for those parties that pose a potentially higher risk.

SPEAK UP SERVICE

We encourage everyone to report potential breaches of our Code, policies or standards through our confidential whistleblowing service, SpeakUp. This is run by an independent third-party, is available around the clock and lets employees and external parties report concerns anonymously. The Whistleblowing or SpeakUp policy provides the platform for employees and stakeholders to raise concerns in respect of any suspected wrongdoing and details how such concerns will be addressed. This includes issues like bullying, harassment, discrimination, breach of policies or standards such as the procurement standard and human rights concerns.

The number of breach reports filed during the year was 64 (44 in FY23). During the year we had an awareness campaign for SpeakUp to our leaders, employees and third parties, emphasising our zero tolerance of retaliation against anyone reporting a concern or helping with an investigation.

EFFECTIVE RISK MANAGEMENT

Risk management remains a key process in the business, and we strive to achieve the business objectives and strategy. This is further supported by the structures and systems which are embedded in the EABL risk management processes. The executive management and the Board are responsible for maintaining sound risk management and internal control systems and determining the nature and extent of the risks that the Company is willing to take to achieve its strategic objectives.

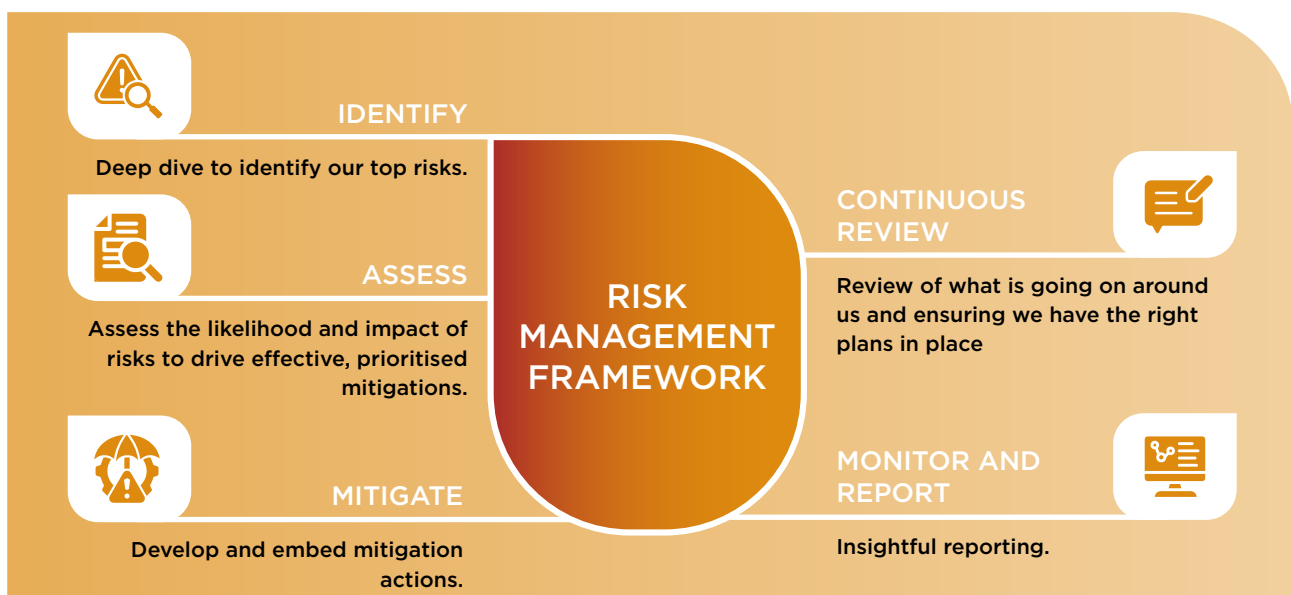

OUR APPROACH

The executive management is responsible for determining the nature and extent of the significant risks that the Company is willing to take to achieve its strategic objectives and for maintaining sound risk management and internal control systems. With the support of the Audit and Risk Committee, the Board annually carries out a review of the effectiveness of its risk management and internal control framework and systems, covering all material controls including financial, operational and compliance controls. The Committee is responsible for recommending the Company's risk appetite and uses risk registers to identify, assess and monitor the key risks (both financial and non-financial) that the business faces. Information on prevailing trends is provided in relation to each risk and all identified risks are assessed at four levels (Very High/High/Medium/Low) by reference to their impact to the business and likelihood of the impact occurring. Mitigation plans are put in place to manage the risks identified and the risk registers are reviewed on a regular basis and at each Audit and Risk Committee meeting.

Our approach is structured to ensure that we take all reasonable steps to mitigate, but not necessarily eliminate, our principal risks. Accountability for managing risk is embedded into our management structures, while an annual risk assessment establishes mitigation plans and monitors risk on a continual basis.

OUR RISK MANAGEMENT FRAMEWORK

We remain committed to robust risk management practices as an integral part of good management. This is evident in our top-down approach, with the Board assuming overall responsibility for the management of risk. Below is the risk management framework.

EABL RISK HIERARCHY

We classify our risks into the following categories:

- Strategic risks
- Compliance/regulatory risks
- Operational risks
- Financial risks

Risks that can be partially mitigated through insurance are also identified and evaluated. We focus our insurance resources on the most critical areas or where there is a legal requirement, seeking a balance between retained risk and risk transfer.

New Directors are issued with letters of appointment, with clear terms and conditions regarding the discharge of their duties.

In between Annual General Meetings (AGMs), in the event of any vacancy, the Board may appoint a Director to serve until the next AGM. Any such appointment of an Independent Director is brought to the attention of the shareholders through the notice of the AGM, and the Director, if they opt to seek re-election, is subjected to an election process by the shareholders, at the next AGM following their appointment, subject to continued satisfactory performance and commitment.

The Articles of Association also provide that at every AGM, and as may be applicable, at least one-third of the directors (with the exclusion of executive directors) must retire from the Board and where eligible, and if they choose to, stand for re-election.

The Non-Executive Directors have letters of appointment for an initial term of three (3) years. Letters of appointment are renewable after the initial three (3) years as per the Board's policy on tenure and upon recommendation by the Nominations and Remuneration Committee. The Board considers the need for it to refresh its membership progressively over time.

The Annual General Meeting provides a useful opportunity for shareholder engagement and in particular, for the Chairman to articulate the Company's progress, receive and answer questions from investors. Relations with shareholders and potential investors are managed principally by the Executive Directors, who are contactable both directly and via the Shares Registrar.

EABL remains committed to relating openly with its shareholders by providing regular as well as ad hoc information on operating and financial performance and addressing any areas of concern. This is achieved through the following:

- Interim and Annual Results and publication of extracts of its financial performance in the daily newspapers, preparation of annual audited accounts and holding of the Annual General Meeting.

The Board is conscious of its responsibility towards all stakeholders and believes this is an important consideration for the long-term growth of the business. Stakeholder engagement and feedback is taken seriously throughout the Group. Regular communication is made around the Group companies and internal staff. The Group places considerable value on the involvement of its internal staff and keeps them informed on matters affecting them as employees and on the various factors affecting the performance of the Group. This is achieved through formal and informal meetings, information available on the Company's website and workplace. The Group uses social media to engage directly with stakeholders through various channels including Facebook, Twitter and LinkedIn. The Group also engages with regulators and Government agencies both directly and through membership of worldwide trade associations.

GOING CONCERN

The Board confirms the financial statements are prepared on a going concern basis and is satisfied that the Group has adequate resources to continue in business for the foreseeable future. In making this assessment, the Directors consider a wide range of information relating to present and anticipated future conditions, including future projections of profitability, cash flows, capital and other resources.

RUNNING A SUSTAINABLE BUSINESS THROUGH AN EFFECTIVE INTERNAL AUDIT & RISK FUNCTION

EABL has an ambition to not only be the best performing consumer products company, but also the most trusted and respected business in Africa. The EABL Internal Audit and Risk function supports in driving this agenda to embed broad ownership of the company's 'trusted and respected' agenda throughout our business. The function reports directly to the EABL Board Audit & Risk Committee (BARC), with a dotted line to the EABL Group MD & CEO. The function provides the EABL Board Audit & Risk Committee (BARC), Board and Executive Committee with visibility and understanding of the group's risk management capability through independent and objective assurance over the quality of the group's internal controls (including but not limited to internal financial controls) and management of key risks in line with an annual internal audit plan approved by the EABL BARC.

The Internal Audit function is a key component of EABL's risk management and governance framework and promotes the improvement of governance, risk management, and control processes by supporting EABL to enforce clear standards on governance and compliance, in line with 'doing business the right way' and by supporting the EABL Board and Executive management to establish an appropriate risk management framework, to understand EABL's key risks, and to determine whether appropriate risk management activities are in place to reduce risks to an acceptable level

The EABL internal audit and risk team seeks to underpin EABL's reputation as a business that can be relied upon to deliver on its promises to its people, its customers, its consumers and its communities.

INTERNAL AUDIT CHARTER

The function has a BARC-approved charter that provides the framework for the activities of the function, its role and responsibilities, its authority, the conduct of the function and how it will operate to accomplish its strategy and mission. The scope of the function's responsibilities is set out in the charter.

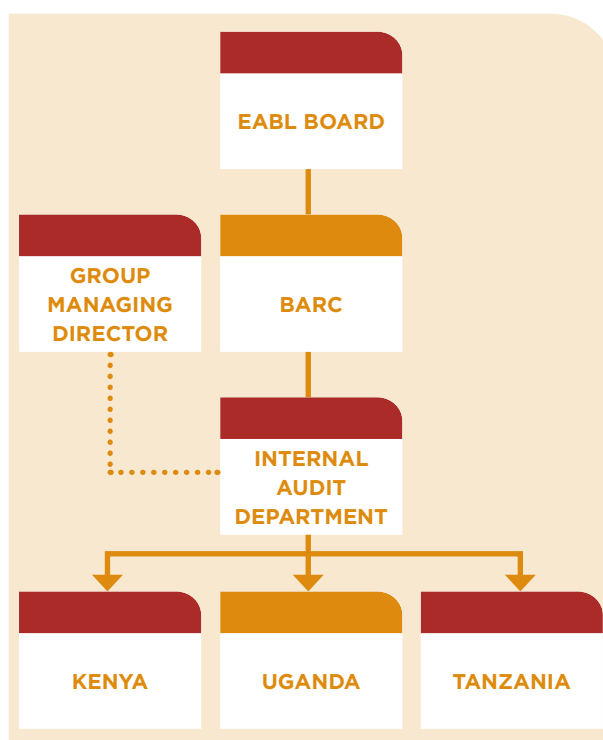

RISK-BASED INTERNAL AUDITING

EABL internal audits are conducted using a risk-based approach, in line with a defined internal audit methodology and standards. This means that during audit planning the function identifies the risks that it has assessed as likely to prevent EABL from meeting its performance ambition. The objective is to ensure risks are being properly managed and this is reported in three main ways:

- Assessment of the design and effectiveness of guidelines and standards in helping the business manage key risks in various processes
- Assessment of how effectively the business adheres to local and global guidelines and has implemented processes to manage key risks
- Process improvement opportunities and best practices to improve process and risk management maturity

The EABL Internal Audit and Risk function's risk-based approach to audit and advisory work is conducted in line with the Institute of Internal Auditors (IIA) Standards set out in the International Professional Practices Framework (International Standards for the Professional Practice of Internal Auditing). The function is also expected to adhere to the requirements of professional practice outlined by the Institute of Certified Public Accountants of Kenya (ICPAK), the Association of Chartered Certified Accountants (ACCA) and the Information Systems Audit and Control Association (ISACA).

ANNUAL REPORT AND FINANCIAL STATEMENTS (CONTINUED)

for the year ended 30 June 2024

DIRECTORS' REPORT

The Directors submit their report together with the audited financial statements for the year ended 30 June 2024, which disclose the state of affairs of East African Breweries Plc ("EABL" or the "Company") together with its subsidiaries (together the "Group"). The annual report and financial statements have been prepared in conformity with the IFRS Accounting Standards and the Kenyan Companies Act 2015 requirements.

1. PRINCIPAL ACTIVITIES

The Company and the Group are involved in the marketing, importation, production, and distribution of a collection of brands that range from beer and spirits to adult non-alcoholic drinks across six markets within which we operate in East Africa, especially concentrated in the three core markets of Kenya, Uganda, and Tanzania.

2. BUSINESS REVIEW

I) FINANCIAL PERFORMANCE

The Group revenue grew by 13% year on year to Kshs 124.1 billion (2023: Kshs 109.6 billion). This growth was realised through a volume growth of 1.2% and strategic pricing taken on both beer and spirits. Kenya saw beer volumes begin to recover as there was no excise increase within the period.

Operating profit increased by 3% to Kshs 24.9 billion (2023: Kshs 24.2 billion). This was realised through pricing to cover inflation, volume growth, innovation and cost management partly offset by a worsening mix as consumer spend was impacted by the rising cost of living. We continued to invest behind our brands, spending Kshs 12.3 billion (2023: Kshs 10.8 billion) to build our brands. Profit after tax declined by 12% to Kshs 10.9 billion (2023: Kshs 12.3 billion) mainly impacted by the rising cost of debt and the devaluation of regional currencies.

II) ENVIRONMENT, SOCIAL AND GOVERNANCE

Our Sustainability Strategy, Society 2030: Spirit of Progress, which is our ten-year action plan to manage our most material ESG matters, continues to be deeply ingrained in our long-term business strategy. During the year, we continued to focus our community investment initiatives on the Strategy's three pillars, namely: (i) Promote Positive Drinking, (ii) Champion Inclusion and Diversity, and (iii) Pioneer Grain to Glass Sustainability through water preservation, accelerating a low carbon world and becoming sustainable by design.

We also leveraged partnerships to support our Society 2030: Spirit of Progress objectives and ensured that, together with our stakeholders, we continued to deliver a positive impact on society everywhere we live, work, source and sell.

III) OUR PEOPLE

Our people are at the core of our organisation's success. We are committed to creating a vibrant and inclusive culture that empowers employees to achieve their full potential. We foster an enabling work environment where everyone is valued and respected, and we strive to create opportunities for personal and professional growth. We are committed to investing in our employees' development through critical experiences, coaching, and on-the-job learning.

Our key people priorities are aimed at unlocking quality growth for our business and people. We focus on growing diverse talents and building capabilities for the future and enhanced employee experience with outcomes delivered through respect, empowerment, and celebration.

IV) RELATED PARTY TRANSACTIONS

The Directors confirm that they have disclosed the Group and Company-related party transactions in these financial statements and there were no insider dealings for the year ended 30 June 2024.

3. DIVIDENDS

Directors recommend that the Board approves the proposal to declare final dividend of Kshs 6.0 per share (2023: Kshs 1.75 per share) amounting to Kshs 4.7 billion (2023: Kshs 1.4 billion). An interim dividend of Kshs 1 per share for 2024 (2023: Kshs 3.75 per share) was paid in April 2024. The total dividend pay-out for the year will therefore be KES 7.0 per share (2023: Kshs 5.5 per share) amounting to Kshs 5.4 billion (2023: Kshs 4.4 billion).

<p>Carrying value of intangible assets (goodwill and brands) and investments in subsidiaries</p> <p>As disclosed in Notes 23 and 24 of the financial statements, the group has goodwill of Kshs 3.0 billion and indefinite lived brand intangible assets of Kshs 512 million as at 30 June 2024 arising from business acquisitions in prior years. The carrying amount of investments in subsidiaries in the Company's statement of financial position at 30 June 2024 was Kshs 47 billion.</p> <p>Management performs an impairment assessment of intangible assets and the investment in subsidiaries on an annual basis as explained in the accounting policies Note 2 (h) and 2 (s) of the financial statements. Recoverable amounts are based on management's estimate of variables and market conditions such as future selling prices and sales volume growth rates, the timing of future operating expenditure, discount and long-term growth rates and terminal values of the assets. Variations in management estimates and judgements could result in material differences in the outcomes of the assessment.</p>	<p>We evaluated and validated the composition of management's cash flow forecasts and the underlying assumptions based on the historical performance of the CGUs, industry specific reports and the macro-economic outlook.</p> <p>We assessed the appropriateness of the impairment models and the reasonableness of the assumptions by benchmarking the key market-related assumptions in the models, such as discount rates, long term growth rates and foreign exchange rates, against external data, and assessed the reliability of cash flow forecasts through a review of actual past performance and comparison to previous forecasts.</p> <p>We tested the mathematical accuracy and performed sensitivity analysis of the inputs and assumptions to the models.</p> <p>We assessed the adequacy and appropriateness of the related disclosures in Notes 23 and 24 of the financial statements.</p>
<p>Provisions and contingent liabilities</p> <p>As explained in Note 31 of the financial statements, the group entities have unresolved tax assessments and claims by Revenue Authorities relating to a range of compliance matters in the normal course of business. The Directors use the best available information to make significant judgements at year-end as to the likely outcome of these matters for purposes of calculating any potential liabilities and/or determining the level of disclosures in the financial statements.</p> <p>As explained in Note 31 of the financial statements, since the settlement of these matters is subject to future negotiations and legal proceedings, the calculations of any provisions are subject to inherent uncertainty. The future outcome of these claims could be materially different from the Directors' judgements.</p>	<p>As explained in Note 31 of the financial statements, since the settlement of these matters is subject to future negotiations and legal proceedings, the calculations of any provisions are subject to inherent uncertainty. We assessed the reasonableness of any provisions recorded in the financial statements in the context of the uncertainty.</p> <p>Our audit focused on assessing the reasonableness of the Directors' judgements in relation to unresolved tax assessments and claims. In particular, our procedures included the following:</p> <ul style="list-style-type: none"> • where relevant, assessing independent professional opinions used in the management judgements and estimates; and • validation of the management judgements and estimates against the supporting internal information and documents, and communications with relevant tax authorities. <p>We evaluated whether the disclosures in the financial statements appropriately reflect any significant uncertainties that exist around the unresolved tax matters.</p>

REPORT ON THE FINANCIAL STATEMENTS (CONTINUED)

OTHER INFORMATION

The other information comprises the Corporate information, the Directors' report, the Directors' remuneration report, the statement of Directors' responsibilities and the Principal shareholders and share distribution information, which we obtained prior to the date of this auditor's report, and the rest of the other information in the 2024 Integrated Report and Financial Statements which is expected to be made available to us after that date, but does not include the financial statements and our auditor's report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in this report, we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information we have received prior to the date of this auditor's report we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the rest of the other information in the 2024 Integrated Report and Financial Statements and we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

RESPONSIBILITIES OF THE DIRECTORS FOR THE FINANCIAL STATEMENTS

The directors are responsible for the preparation of financial statements that give a true and fair view in accordance with IFRS Accounting Standards and the requirements of the Companies Act, 2015, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the Group's financial statements. We are responsible for the direction, supervision and performance of the Group audit. We remain solely responsible for our audit opinion.

REPORT OF THE INDEPENDENT AUDITOR TO THE SHAREHOLDERS OF EAST AFRICAN BREWERIES PLC (CONTINUED)

REPORT ON THE FINANCIAL STATEMENTS (CONTINUED)

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the directors, we determine those matters that were of most significance in the audit of the Group's financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

REPORT ON OTHER MATTERS AS PRESCRIBED BY THE COMPANIES ACT, 2015

REPORT OF THE DIRECTORS

In our opinion, the information given in the directors' report on pages 137 to 138 is consistent with the financial statements.

DIRECTORS' REMUNERATION REPORT

In our opinion the auditable part of the directors' remuneration report on pages 139 to 142 has been properly prepared in accordance with the Companies Act, 2015.

The Company's shares are listed on the Nairobi Securities Exchange, Uganda Stock Exchange and Dar es Salaam Stock Exchange.

For Companies Act, 2015 reporting purposes, the balance sheet is represented by the statement of financial position and the profit or loss account by the statement of profit or loss and other comprehensive income, in these financial statements.

2. MATERIAL ACCOUNTING POLICIES

The principal accounting policies adopted in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated.

(A) BASIS OF PREPARATION

(I) BASIS OF ACCOUNTING

The financial statements have been prepared in accordance with IFRS Accounting Standards and in the manner required by the Companies Act, 2015. The measurement basis applied is the historical cost basis, except where otherwise stated in the accounting policies below.

(II) GOING CONCERN

The financial statements have been prepared in accordance with IFRS Accounting Standards and in the manner required by the Companies Act, 2015. The measurement basis applied is the historical cost basis, except where otherwise stated in the accounting policies below.

(III) FUNCTIONAL AND PRESENTATION CURRENCY

The financial statements are presented in Kenya Shillings which is the Company's functional currency. All

financial statements presented in Kenya Shillings have been rounded to the nearest thousand except when otherwise indicated.

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates 'the functional currency' except where otherwise indicated.

(IV) USE OF JUDGEMENT AND ESTIMATES

The preparation of financial statements in conformity with IFRS Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or where assumptions and estimates are significant to the financial statements, are disclosed in Note 3.

(V) NEW AND AMENDED STANDARDS ADOPTED BY THE GROUP

The following standards and amendments have been applied by the Group for the first time for the financial year beginning 1 July 2023:

AMENDMENTS TO IAS 12, INCOME TAXES: DEFERRED TAX RELATED TO ASSETS AND LIABILITIES ARISING FROM A SINGLE TRANSACTION

Effective from annual periods beginning on or after 1 January 2023.

The amendments require companies to recognise deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences.

NARROW SCOPE AMENDMENTS TO IAS 1 'PRESENTATION OF FINANCIAL STATEMENTS', PRACTICE STATEMENT 2 AND IAS 8 'ACCOUNTING POLICIES, CHANGES IN ACCOUNTING ESTIMATES AND ERRORS'

Effective from annual periods beginning on or after 1 January 2023.

The amendments aim to improve accounting policy disclosures and to help users of the financial statements to distinguish changes in accounting policies from changes in accounting estimates.

(V) NEW AND AMENDED STANDARDS ADOPTED BY THE GROUP

(CONTINUED)

AMENDMENTS TO IAS 12

INTERNATIONAL TAX REFORM—PILLAR TWO MODEL RULES

Effective from annual periods beginning on or after 1 January 2023.

These amendments give companies temporary relief from accounting for deferred taxes arising from the Organisation for Economic Co-operation and Development's (OECD) international tax reform. The amendments also introduce targeted disclosure requirements for affected companies.

The application of the above amendments did not have a material impact on the financial statements.

(VI) RELEVANT NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT EFFECTIVE

AMENDMENTS TO IAS 1 - NON-CURRENT LIABILITIES WITH COVENANTS

These amendments clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability. The amendments also aim to improve information an entity provides related to liabilities subject to these conditions.

AMENDMENT TO IFRS 16 - LEASES ON SALE AND LEASEBACK

These amendments include requirements for sale and leaseback transactions in IFRS 16 to explain how an entity accounts for a sale and leaseback after the date of the transaction. Sale and leaseback transactions where some or all the lease payments are variable lease payments that do not depend on an index or rate are most likely to be impacted.

AMENDMENTS TO SUPPLIER FINANCE ARRANGEMENTS (IAS 7 AND IFRS 7)

These amendments require disclosures to enhance the transparency of supplier finance arrangements and their effects on a company's liabilities, cash flows and exposure to liquidity risk. The disclosure requirements are the IASB's response to investors' concerns that some companies' supplier finance arrangements are not sufficiently visible, hindering investors' analysis.

AMENDMENTS TO IAS 21 LACK OF EXCHANGEABILITY (AMENDMENTS TO IAS 21)

An entity is impacted by the amendments when it has a transaction or an operation in a foreign currency that is not exchangeable into another currency at a measurement date for a specified purpose. A currency is exchangeable when there is an ability to obtain the other currency (with a normal administrative delay), and the transaction would take place through a market or exchange mechanism that creates enforceable rights and obligations.

(VII) EARLY ADOPTION OF STANDARDS

The Group did not early adopt new or amended standards in the year ended 30 June 2024.

Adoption of the above interpretations and amendments is not expected to have a material impact on the group's financial statements.

(B) BASIS OF CONSOLIDATION

The consolidated financial statements include the results of the Company and its subsidiaries. A subsidiary is an entity controlled by East African Breweries Plc. Control is the power to direct the relevant activities of the subsidiary that significantly affects the subsidiary's return so as to have rights to the variable return from its activities.

Where the Group has the ability to exercise joint control over an entity but has rights to specified assets and obligations for liabilities of that entity, the entity is consolidated on the basis of the group's rights over those assets and liabilities.

(I) SUBSIDIARIES

Subsidiaries are entities controlled by the Group. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which control ceases. Investments in subsidiaries are accounted for at cost in the Company's financial statements.

(II) NON-CONTROLLING INTERESTS (NCI)

NCI are initially measured at their proportionate share of the acquired identifiable net assets at the acquisition date.

(III) CHANGES IN THE GROUP'S OWNERSHIP INTERESTS IN EXISTING SUBSIDIARIES

Changes in the Group's ownership interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions.

(CONTINUED)

(B) BASIS OF CONSOLIDATION

(CONTINUED)

(III) CHANGES IN THE GROUP'S OWNERSHIP INTERESTS IN EXISTING SUBSIDIARIES

(CONTINUED)

The carrying amount of the Group's interests and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interests are adjusted and the fair values of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

(IV) BALANCES AND TRANSACTIONS ELIMINATED AT CONSOLIDATION

Intra-group balances and transactions, and any unrealised income and expenses arising from intra-group transactions, are eliminated. Unrealised losses are eliminated in the same way as unrealised gains, but only to the extent that there is no evidence of impairment.

(C) REVENUE RECOGNITION

The Group recognises revenue from the sale of goods and services in the ordinary course of the Group's activities. The Group recognises revenue at a point in time as and when it satisfies a performance obligation by transferring control of a product or service to a customer.

The amount of revenue recognised is the amount the Group expects to receive in accordance with the terms of the contract, and excludes amounts collected on behalf of third parties, such as value-added tax (VAT), excises, returns, rebates and discounts and after eliminating sales within the Group.

Revenue is recognised as follows:

- (i) Sales of goods are recognised in the period in which the Group delivers products to the customer, the customer accepts the products and collectability of the related receivables is reasonably assured.
- (ii) Royalty income is recognised based on agreed rates applied on net sales value of the related products.
- (iii) Management fee is recognised based on actual costs plus an agreed mark up.

Generally, payment of the transaction price is due within credit period of between 7 to 8 days with no element of financing.

The company does not have contract assets or contract liabilities at the reporting date.

(D) DIVIDEND INCOME

Dividend income is recognised as income in the period in which the right to receive the payment is established.

(E) FINANCE INCOME AND COSTS

Finance income comprises interest income and foreign exchange gains that relate to borrowings and cash and cash equivalents. Interest income is recognised in profit or loss on a time proportion basis using the effective interest method. Once a financial asset is identified as credit-impaired, the effective interest rate is applied to the amortised cost (net of impairment losses) in subsequent reporting periods.

Finance costs comprise interest expense and foreign exchange losses that relate to borrowings and cash and cash equivalents. Interest expense is recognised in profit or loss using the effective interest method.

All other foreign exchange gains and losses are presented in profit or loss within 'other income/ expenses'.

(F) FOREIGN CURRENCY TRANSLATION

Foreign currency transactions are translated into the functional currency of the respective entity using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the profit or loss.

CONSOLIDATION OF GROUP ENTITIES

The results and financial position of all Group entities that have a functional currency different from the presentation currency are translated into the presentation currency as follows:

- assets and liabilities for each statement of financial position presented are translated at the closing rate at the reporting date;
- income and expenses for each statement of profit or loss and other comprehensive income are translated at average exchange rates (unless this average is not a reasonable approximation of the cumulative effect of the rates prevailing on the transaction dates, in which case income and expenses are translated at actual rates at the dates of the transactions); and
- all resulting exchange differences are recognised in other comprehensive income and accumulated in the translation reserve except to the extent that the translation difference is allocated to Non-controlling interest (NCI).

for the year ended 30 June 2024

(CONTINUED)

(F) FOREIGN CURRENCY TRANSLATION (CONTINUED)

On consolidation, exchange differences arising from the translation of the net investment in foreign entities, and of borrowings and other currency instruments designated as hedges of such investments, are taken to other comprehensive income. When a foreign operation is sold, such exchange differences are recognised in the profit or loss as part of the gain or loss on sale.

If the Group disposes of only part of its interest in a subsidiary that includes a foreign operation while retaining control, then the relevant proportion of the cumulative amount is reattributed to NCI.

The assets and liabilities of foreign operations, including goodwill and fair value adjustments arising on acquisition, are translated into presentation currency at the closing exchange rates at the reporting date. The income and expenses of foreign operations are translated into the presentation currency at actual exchange rates at the dates of the transactions.

(G) PROPERTY, PLANT AND EQUIPMENT

Items of property, plant and equipment are measured at cost, less accumulated depreciation and accumulated impairment losses. Costs include expenditure that is directly attributable to the acquisition of the asset. Purchased software that is integral to the functionality of the related equipment is capitalised as part of that equipment.

Expenditure on assets under construction is charged to work in progress until the asset is brought into use. Subsequent expenditure is capitalised only when it is probable that future economic benefits of the expenditure will flow to the Group. Ongoing repairs and maintenance are expensed as incurred.

Depreciation is calculated on a straight-line basis to write down the cost of each asset to its residual value over its estimated useful life as follows:

Buildings 25 years or unexpired period of lease if less than 25 years

Plant, equipment, furniture and fittings 5 – 33 years

Motor vehicles 4 – 5 years

Returnable packaging 5 – 15 years

Freehold land and capital work in progress are not depreciated.

Depreciation methods, useful lives and residual values are reassessed annually at each reporting date and adjusted if appropriate.

Gains and losses on disposal of an item of property, plant and equipment are determined by comparing the proceeds from disposal with the carrying amount of property, plant and equipment and are recognised net within “other income/expenses” in the profit or loss.

(H) INTANGIBLE ASSETS

(I) COMPUTER SOFTWARE

Acquired computer software licences are capitalised on the basis of the costs incurred to acquire and bring to use the specific software. These costs are amortised over their estimated useful lives of the software from the date that they are available for use. The estimated useful life is three to five years.

(II) GOODWILL

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired subsidiary at the date of acquisition. Goodwill on subsidiaries is carried at cost less accumulated impairment losses. Goodwill is tested annually for impairment. Impairment losses on goodwill are not reversed. Gains and losses on disposal of an entity include the carrying amount of goodwill relating to the entity sold. Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units that are expected to benefit from the business combination in which the goodwill arose.

(III) BRANDS

Brands acquired as part of acquisitions of businesses are capitalised as intangible assets if their value can be measured reliably on initial recognition and it is probable that the expected future economic benefits that are attributable to the asset will flow to the Group. Brands are considered to have an indefinite economic life because of the institutional nature of the brands and the Group's commitment to develop and enhance their value. The carrying value of these intangible assets is reviewed at least annually for impairment and adjusted to the recoverable amount if required.

(I) FINANCIAL INSTRUMENTS

Financial assets and financial liabilities are recognised in the Group's statement of financial position when, and only when, the Group becomes a party to the contractual provisions of the instrument.

(I) FINANCIAL INSTRUMENTS

(CONTINUED)

All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the marketplace.

CLASSIFICATION

The Group classifies its financial instruments into the following categories:

- (i) Financial assets that are held within a business model whose objective is to hold assets in order to collect contractual cash flows, and for which the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are classified and measured at amortised cost;
- (ii) Financial assets that are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets, and for which the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are classified and measured at fair value through other comprehensive income;
- (iii) All other financial assets are classified and measured at fair value through profit or loss.
- (iv) Notwithstanding the above, the Group may:
 - a) on initial recognition of an equity investment that is not held for trading, irrevocably elect to classify and measure it at fair value through other comprehensive income.
 - b) on initial recognition of a debt instrument, irrevocably designate it as classified and measured at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency.
- (v) Financial liabilities that are held for trading (including derivatives), financial guarantee contracts, or commitments to provide a

loan at a below-market interest rate are classified and measured at fair value through profit or loss. The Group may also, on initial recognition, irrevocably designate a financial liability as at fair value through profit or loss if doing so eliminates or significantly reduces a measurement or recognition inconsistency.

- (vi) All other financial liabilities are classified and measured at amortised cost. Financial instruments held during the year were classified as follows:

- Cash and bank balances and trade and other receivables are classified at amortised cost.
- Borrowings and trade and other payables are classified at amortised cost.

INITIAL MEASUREMENT

On initial recognition:

- i) Trade receivables are measured at their transaction price.
- ii) All other categories of financial assets and financial liabilities are measured at the fair value plus or minus transaction costs that are directly attributable to the acquisition or issue of the instrument.

SUBSEQUENT MEASUREMENT

Financial assets and financial liabilities after initial recognition are measured either at amortised cost, at fair value through other comprehensive income, or at fair value through profit or loss according to their classification.

Interest income, dividend income, and exchange gains and losses on monetary items are recognised in profit or loss.

DERECOGNITION

Financial assets are derecognised when the rights to receive cash flows from the financial asset have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. A financial liability is derecognised when it is extinguished, cancelled or expires.

(J) OFFSETTING OF FINANCIAL ASSETS AND LIABILITIES

Financial assets and financial liabilities are offset and the net amount is reported on the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

(K) LEASES

(I) LEASES UNDER WHICH THE GROUP IS THE LESSEE

On the commencement date of each lease (excluding leases with a term of 12 months or less on commencement and leases for which the underlying asset is of low value), the Group recognizes a right-of-use asset and a lease liability.

The lease liability is measured at the present value of the lease payments that are not paid on that date. The lease payments include fixed payments, variable payments that depend on an index or a rate, amounts expected to be payable under residual value guarantees, and the exercise price of a purchase option if the Group is reasonably certain to exercise that option. The lease payments are discounted at the interest rate implicit in the lease. If that rate cannot be readily determined, the Group's incremental borrowing rate is used.

For leases that contain non-lease components, the Group allocates the consideration payable to the lease and non-lease components based on their relative stand-alone components.

The right-of-use asset is initially measured at cost comprising the initial measurement of the lease liability, any lease payments made on or before the commencement date, any initial direct costs incurred, and an estimate of the costs of restoring the underlying asset to the condition required under the terms of the lease.

Subsequently the lease liability is measured at amortised cost, subject to remeasurement to reflect any reassessment, lease modifications, or revised fixed lease payments.

Right-of-use assets are subsequently measured at cost less accumulated depreciation and any accumulated impairment losses, adjusted for any remeasurement of the lease liability. Depreciation is calculated using the straight-line method to write down the cost of each asset to its residual value over its estimated useful life. If ownership of the underlying asset is not expected to pass to the Group at the end of the lease term, the estimated useful life would not exceed the lease term.

For leases with a term, on commencement, of 12 months or less and leases for which the underlying asset is of low value, the

total lease payments are recognized in profit or loss on a straight-line basis over the lease period.

(II) LEASES UNDER WHICH THE GROUP IS THE LESSOR

Leases that transfer substantially all the risks and rewards of ownership of the underlying asset to the lessee are classified as finance leases. All other leases are classified as operating leases. Payments received under operating leases are recognized as income in the profit and loss account on a straight-line basis over the lease term.

(L) INVENTORIES

Inventories are stated at the lower of cost and net realisable value. Cost is based on the weighted average method and expenditure incurred in acquiring the inventories and bringing them to their existing location and condition. The cost of finished goods and work in progress comprises an appropriate share of production overheads based on normal operating capacity. Net realisable value is the estimate of the selling price in the ordinary course of business, less the costs of completion and selling expenses.

(M) TREASURY SHARES

Treasury shares are shares in East African Breweries Plc that are held by the East African Breweries Plc Employee Share Ownership Plan for the purpose of issuing shares under the Group's share ownership scheme. Treasury shares are recognised at cost where cost is determined to be the purchase price of the shares in an open market (Nairobi Securities Exchange). Shares issued to employees are recognised on a first-in-first-out basis.

(N) SHARE-BASED PAYMENT ARRANGEMENTS

The Group operates equity-settled share-based compensation plans for its employees and executives.

Equity-settled share-based payments to employees are measured at the fair value of the equity instruments at the grant date. The fair value determined at the grant date of the equity-settled share-based payments is expensed on a straight-line basis over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in the profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to share based payment reserve in equity.

(O) EMPLOYEE BENEFITS

(I) RETIREMENT BENEFITS OBLIGATIONS

The Group operates defined contribution retirement benefit schemes for some of its employees. The assets of all schemes are held in separate trustee administered funds, which are funded by contributions from both the Group and employees. The Group and all its employees also contribute to the National Social Security Funds, which are defined contribution schemes.

The Group's contributions to the defined contribution schemes are recognised in the profit or loss in the year to which they relate. The Group has no further obligation once the contributions have been paid.

(II) TERMINATION BENEFITS

Termination benefits are recognised as an expense when the Group is demonstrably committed, without realistic possibility of withdrawal, to a formal detailed plan to terminate employment before the normal retirement date.

(III) SHORT-TERM EMPLOYEE BENEFITS

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(P) INCOME TAX EXPENSE

The tax expense for the year comprises current and deferred income tax. Tax is recognised in the profit or loss except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

Current tax is the amount of tax payable on the taxable profit for the year determined in accordance with the relevant tax legislation and any adjustment to tax payable or receivable in respect of previous years. The current tax charge is calculated on the basis of the tax rates enacted or substantively enacted at the reporting date.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognised for the following temporary differences: the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit, and differences relating to investments in subsidiaries to the extent that it is probable that they will not reverse in the foreseeable future. In addition, deferred income tax is not recognised for taxable temporary differences arising on the initial recognition of goodwill. Deferred tax is measured using tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred income tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. A tax rate reconciliation that reconciles the notional taxation charge as calculated at the Kenya tax rate, to the actual total tax charge is prepared on a materiality basis. As a Group operating in multiple countries, the actual tax rates applicable to profits in some of countries are different from the Kenya tax rate.

Additional income taxes that arise from the distribution of dividends are recognised at the same time as the liability to pay the related dividend.

(Q) DIVIDENDS

Dividends payable on ordinary shares are charged to retained earnings in the period in which they are declared. Proposed dividends are not accrued for until ratified in an Annual General Meeting.

(R) SEGMENTAL REPORTING

Segment information is presented in respect of the Group's geographical segments, which is the primary format and is based on the countries in which the Group operates. The Group has no other distinguishable significant business segments.

Segment results, assets and liabilities include items directly attributable to a segment as well as those that can be allocated on a reasonable basis. Inter-segment pricing is determined on an arm's length basis.

(S) IMPAIRMENT

IMPAIRMENT OF FINANCIAL ASSETS

The Group recognises a loss allowance for expected credit losses on financial instruments that are measured at amortised cost or at fair value through other comprehensive income. The loss allowance is measured at an amount equal to the lifetime expected credit losses for trade receivables and for financial instruments for which: (a) the credit risk has increased significantly since initial recognition; or (b) there is observable evidence of impairment (a credit-impaired financial asset). If, at the reporting date, the credit risk on a financial asset other than a trade receivable has not increased significantly since initial recognition, the loss allowance is measured for that financial instrument at an amount equal to 12-month expected credit losses. All changes in the loss allowance are recognised in profit or loss as impairment gains or losses.

Lifetime expected credit losses represent the expected credit losses that result from all possible default events over the expected life of a financial instrument. 12-month expected credit losses represent the portion of lifetime expected credit losses that result from default events on a financial asset that are possible within 12 months after the reporting date.

Expected credit losses are measured in a way that reflects an unbiased and probability-weighted amount determined by evaluating a range of possible outcomes, the time value of money, and reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

IMPAIRMENT OF NON-FINANCIAL ASSETS

The carrying amounts of the Group's non-financial assets, other than deferred tax assets and inventories, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset Group that generates cash flows that largely are independent from other assets and groups. Impairment losses are recognised in profit or loss.

Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit on a pro-rata basis.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An impairment loss in respect of goodwill is not reversed. For other assets, an impairment of loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation and amortisation, if no impairment loss had been recognised.

(T) EARNINGS PER SHARE

The Group presents basic and diluted earnings per share (EPS) data for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of any dilutive potential ordinary shares.

2. MATERIAL ACCOUNTING POLICIES

(U) BORROWING COSTS

Borrowing costs consist of interest and other costs that the Group incurs in connection with the borrowing of funds. Borrowing costs that are directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets, until such a time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

(V) SHARE CAPITAL

Ordinary shares are classified as 'share capital' in equity. Any premium received over and above the par value of the shares is classified as 'share premium' in equity. An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Group entity are recognised at the proceeds received, net of direct issue costs.

(W) CASH AND CASH EQUIVALENTS

For the purposes of the statement of cash flows, cash and cash equivalents comprise cash in hand, bank balances and deposits held at call with the banks net of bank overdrafts.

(X) COMPARATIVES

Where necessary, comparative figures have been adjusted to confirm with changes in presentation in the current year.

(Y) RETURNABLE PACKAGING

As returnable packaging is the fixed asset of the Group, the expectation is that the customer will regularly return them, therefore they are not due for payment.

The asset values are maintained accurately through the normal depreciation process – where Gross Book Value (GBV) of a Returnable Packaging asset is constantly and actively reduced throughout the period of useful life in a linear way (normal depreciation).

Depreciation of returnable packaging:

Bottles	Crates	Kegs
5 years	10 years	10 years

The asset quantities must be accurate to ensure that the reported quantity of returnable packaging in Fixed Asset Register is reliable and represents the total population of bottles/kegs/crates available for the business therefore can serve as a basis for commercial planning, production planning and enable the right business decisions.

(Z) COST OF SALES

Costs of sales include costs directly associated with generating revenues. They include direct material and labour costs but also indirect costs that can be directly attributed to generating revenue, e.g. depreciation of assets used in the production.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expected future events that are believed to be reasonable under the circumstances.

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are addressed below:

(I) IMPAIRMENT OF GOODWILL AND OTHER INDEFINITE LIVED INTANGIBLE ASSETS (BRAND)

Assessment of the recoverable value of an intangible asset, the useful economic life of an asset, or that an asset has an indefinite life, requires management judgement. The Group annually tests whether goodwill and brands have suffered any impairment, in accordance with the accounting policy stated in Note 2(s). The recoverable amounts of cash-generating units have been determined based on value-in-use calculations as stated in Note 23.

NOTES (CONTINUED)

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS (CONTINUED)

(II) CALCULATION OF LOSS ALLOWANCE ON FINANCIAL ASSETS

When measuring expected credit loss on financial assets, the Group uses reasonable and supportable forward-looking information, which is based on assumptions for the future movement of different economic drivers and how these drivers will affect each other.

Loss given default is an estimate of the loss arising on default. It is based on the difference between the contractual cash flows due and those that the lender would expect to receive, taking into account cash flows from collateral and integral credit enhancements.

(III) TAX PROVISIONS

The Group is subject to income taxes in various jurisdictions. Significant judgment is required in determining the Group's provision for taxes. There are many transactions and calculations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group recognises liabilities for anticipated tax audit issues based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the tax provisions in the period in which such determination is made. Disclosures on contingent liabilities with respect to tax are included in Note 31.

(IV) PROPERTY, PLANT AND EQUIPMENT

Critical estimates are made by the Directors in determining useful lives for property, plant and equipment. The depreciation rates used are set out in Note 2(g). Directors also apply estimates in determining the existence of returnable packaging materials.

(V) LEASE LIABILITIES

In order to make a judgement to determine the term of the lease and the corresponding lease liability, the Directors consider any options regarding extension or termination of the lease contract which may be available and whether it is probable that such options will be exercised.

Unless there is an implicit interest rate contained in the lease contract, the discount rate used to calculate the net present value of the lease liability is the Group's incremental borrowing rate. This rate is estimated by the Directors to be the rate which would be paid by the Group to purchase a similar asset.

(VI) PROVISIONS AND CONTINGENT LIABILITIES PROVISIONS

A provision is recognized if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

A provision for restructuring is recognized when the Company has approved a detailed and formal restructuring plan, and the restructuring either has commenced or has been announced publicly. Future operating losses are not provided for.

CONTINGENT LIABILITIES

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company, or a present obligation that arises from past events but is not recognized because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability (Note 31).

4. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's activities expose it to a variety of financial risks including credit risk, liquidity risk and market risks which mainly comprise effects of changes in debt and equity market prices, foreign currency exchange rates and interest rates. The Group's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on its financial performance. This note presents information about the Group's exposure to financial risks, the Group's objectives, policies and processes for measuring and managing the financial risks. Further quantitative disclosures are included throughout these financial statements.

The Group has established a risk management committee made up of senior management which is responsible for developing and monitoring the Group's risk management policies. These policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits.

4. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

(CONTINUED)

These risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group has also established a controls and compliance function, which carries out regular and adhoc reviews of risk management controls and procedures. The results are reported to senior management.

MARKET RISK

I) FOREIGN CURRENCY RISK

Foreign currency risk arises on sales, purchases, borrowings and other monetary balances denominated in currencies other than Kenya Shillings. Management's policy to manage foreign exchange risk is to actively manage the foreign currency denominated procurement contracts. The Group also enters into short term cash flow hedge contracts using available cash balance.

A 5 percent strengthening of the Kenya shilling against the following currencies at 30 June 2024 would have increased/(decreased) profit for the year by the amounts shown below. This analysis

assumes that all other variables, in particular interest rates, remains constant. The analysis was performed on the same basis for 2023.

II) PRICE RISK

The Group does not hold any financial instruments subject to price risk.

III) INTEREST RATE RISK

The Group's interest-bearing financial instruments include bank loans, bank overdrafts and related party borrowings. These are at various rates, and they are therefore exposed to cash flow interest rate risk. The Group regularly monitors financing options available to ensure optimum interest rates are obtained.

As at 30 June 2024, an increase/decrease of 3 percentage point would have resulted in a decrease/increase in profit for the year of Kshs 981,003,508 (2023: Kshs 401,506,653), mainly as a result of higher/lower interest charges on variable rate borrowings. For the Company, an increase/decrease of 3 percentage point would have resulted in a decrease/increase in profit for the year of Kshs 791,000,000 (2023: Kshs 308,700,000), mainly as a result of higher/lower interest charges on variable rate borrowings.

CREDIT RISK

Credit risk is the risk that a counterparty will default on its contractual obligations resulting in financial loss to the Group. Credit risk arises from bank balances (including deposits with banks and financial institutions), derivative financial instruments, as well as credit exposures to customers, including outstanding trade and other receivables, financial guarantees and committed transactions.

MAXIMUM EXPOSURE TO CREDIT RISK

The table below represents the Group's maximum exposure to credit risk at the end of the reporting period excluding the impact of any collateral held or other credit enhancements:

CREDIT RISK MANAGEMENT POLICY

The Group has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. The Group's exposure and the credit rating of its counterparties are continuously monitored, and the aggregate value of transactions concluded is spread amongst approved counterparties.

Credit risk on deposits with banking institutions is managed by dealing with institutions with good credit ratings.

Trade and other receivables exposures are managed locally in the operating units where they arise, and credit limits are set as deemed appropriate for the customer. The operating units analyse credit risk for each new customer before standard payment and delivery terms are offered, taking into account its financial position, past experience and other factors. Individual risk limits are set based on internal ratings. The utilisation of credit limits is monitored regularly. In addition, the Group manages credit risk by requiring the customers to provide financial guarantees.

The Group does not have any significant concentrations of credit risk with respect to trade and other receivables as the Group has a large number of customers which are geographically dispersed. The credit risk associated with receivables is minimal and the allowance expected credit losses that the Group has recognised in the financial statements is considered adequate to cover any potentially irrecoverable amounts.

IMPAIRMENT OF FINANCIAL ASSETS

The Group always measures the loss allowance for trade receivables at an amount equal to lifetime expected credit losses. The expected credit losses on trade receivables are estimated using a provision matrix by reference to past default experience of the customer and an analysis of the customer's current financial position, adjusted for factors that are specific to the customers, general economic conditions in which the customers operate and an assessment of both the current as well as the forecast direction of conditions at the reporting date.

Trade receivables are written off when there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include, amongst others, the failure of a debtor to engage in a repayment plan with the Group, and a failure to make contractual payments for a period of greater than 180 days past due.

Cash and bank balances were assessed for impairment using the credit ratings of the banking institutions. The resulted ECL was immaterial.

Due from related parties was assessed for impairment by reference to the financial strength of the counter party. The resulted ECL was immaterial.

Other receivables were assessed for impairment based on past collection history and expectation of cash flows from the debtor. A loss rate based on past collection history adjusted for forward looking information is used to calculate ECL as set out in Note 27 of the financial statements.

LIQUIDITY RISK

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. Prudent liquidity risk management includes maintaining sufficient cash balances

and ensuring the availability of funding from an adequate amount of committed credit facilities. Due to the dynamic nature of the underlying businesses, the Group maintains flexibility in funding by maintaining availability under committed credit lines.

Management performs cash flow forecasting and monitors rolling forecasts of the Group's liquidity requirements to ensure it has sufficient cash to meet its operational needs while maintaining sufficient headroom on its undrawn committed borrowing facilities at all times so that the Group does not breach borrowing limits or covenants (where applicable) on any of its borrowing facilities. The Group's approach when managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, without incurring unacceptable losses or risking damage to the Group's reputation.

The table below analyses the Group's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts are the contractual undiscounted cash flows. Balances due within 12 months equal their carrying balances as the impact of discounting is not significant.

CAPITAL RISK MANAGEMENT

The Group's primary focus is on enhancing shareholder value in the long term by investing in businesses and brands, aiming for continued improvement in returns. The Board's policy emphasizes maintaining a robust capital base to instil confidence among investors, creditors, and the market, ensuring sustained future business development.

In managing the capital structure, the Group closely monitors two key ratios:

a) Net Debt to Equity: As of 30 June 2024, the net debt to equity ratio is x1.05, well below the maximum limit of 3x set by the Company's Articles of Association for directors' borrowing powers.

b) Net Borrowings to EBITDA Leverage: The Group targets a net borrowings to EBITDA leverage of 0.5 to 1.5 times. As of 30 June 2024, the reported ratio is x1.17, within the target and banking covenants of 3.5x.

By adhering to these principles, the Group ensures its sustainability as a going concern while maximizing stakeholder returns and supporting current and future business development needs.

The Group reported net borrowings to EBITDA leverage reflected in the table below:

4. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

FAIR VALUE MEASUREMENT

Fair value measurements of financial instruments are presented through the use of a three-level fair value hierarchy that prioritises the valuation techniques used in fair value calculations. The Group specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources while unobservable inputs reflect the Group's market assumptions.

The different levels in the fair value hierarchy have been defined as follows:

- i) Level 1 fair value measurements are derived from quoted prices (unadjusted) in active trading markets for identical assets or liabilities. This level includes listed debt and equity instruments traded mainly on the Nairobi Securities Exchange ("NSE").
- ii) Level 2 fair value measurements are derived from inputs other than quoted prices that are observable for the asset or liability, either directly (i.e. as a price) or indirectly (i.e. derived from prices).

iii) Level 3 fair value measurements are derived from valuation techniques that include inputs that are not based on observable market data (unobservable inputs).

The Group maintains policies and procedures to value instruments using the most relevant data available. If multiple inputs that fall into different levels of the hierarchy are used in the valuation of an instrument, the instrument is categorised on the basis of the most subjective input.

Foreign currency forward contracts are valued using discounted cash flows technique that incorporate the prevailing market rates. Under this technique, future cash flows are estimated based on forward exchange rates (from observable forward exchange rates at the end of the reporting period), discounted at a rate that reflects the credit risk of the counterparties.

As significant inputs to the valuation are observable in active markets, these instruments are categorised as level 2 in the hierarchy. Other investments are carried at cost as there is no suitable basis for its valuation and are therefore categorised as level 3 in the hierarchy.

The following table presents the Group and Company's financial assets and liabilities that are measured at fair value at 30 June 2024.

The Group leases space for offices, motor vehicles and office equipment. The leases of office space is for an average of 10 years with an option to renew. The Directors were not reasonably certain that the option to renew the lease would be exercised at the expiry of the lease. The option has therefore not been considered in determining the lease term. The leases of motor vehicles are on average 4 to 5 years,

while the leases of office equipment are for periods of not more than 12 months.

In the year ended 30 June 2024 short term and low value leases included in operating lease expenses in respect of extended vehicle leases comprised of Kshs 1.1 billion and machinery of Kshs 33 million (2023: Kshs 769 million and 71 million respectively).

(C) IMPAIRMENT TESTING FOR CASH-GENERATING UNITS CONTAINING GOODWILL AND BRAND

(I) IMPAIRMENT TESTING METHODOLOGY

For the purposes of impairment testing, goodwill is allocated to the Group's operating segments which represent the lowest level within the Group at which the goodwill is monitored for internal management purposes.

The recoverable amount of an operating segment is determined based on a detailed 5-year model that has been extrapolated in perpetuity by applying the long-term growth rate of the country. Profit has been amended with working capital and capital expenditure requirements. The net cash flows have been discounted using the country-specific weighted average cost of capital (WACC). These calculations use cash flow projections approved by management covering a 5-year period. Cash flows beyond the five-year period are extrapolated using estimated terminal growth rates.

(II) KEY ASSUMPTIONS USED FOR VALUE IN USE CALCULATIONS

	Tanzania		Kenya		Uganda	
	2024	2023	2024	2023	2024	2023
Terminal growth rate ¹	4.50%	4.50%	5.00%	5.00%	5.00%	5.00%
WACC rate ²	16.40%	17.50%	13.60%	13.66%	13.30%	13.28%

1. Weighted average growth rate used to extrapolate cash flows beyond the projected period.

2. Discount rate applied to the cash flow projections.

These assumptions have been used for the analysis of each operating segment. Management determined forecast profit margin based on past performance and its expectations for market developments. The weighted average growth rates used are consistent with the forecasts included in industry reports.

BRAND

Based on the above assumptions and considering the forecast sales growth rates, operating profits and cash inflows, the recoverable value of the brand exceeded the carrying value at 30 June 2024. As a result, the Group has not recognised an impairment charge (2023: Nil).

(III) RESULTS OF IMPAIRMENT TESTING ON THE CARRYING AMOUNT OF GOODWILL AND BRAND

GOODWILL

Based on the above assumptions and considering the forecast sales growth rates, operating profits and cash inflows, the recoverable value of the relevant operating segment exceeded the carrying net asset amount (including the goodwill) for SBL, UDV and IDU at 30 June 2024. As a result, the Group has not recognised an impairment charge (2023: Nil).

(IV) SIGNIFICANT ESTIMATES: IMPACT OF POSSIBLE CHANGES IN KEY ASSUMPTIONS

There were no reasonably possible changes in any of the key assumptions that would have resulted in an impairment charge for SBL, UDV and IDU goodwill and the SBL brand.

A 1% change in the WACC/Terminal Growth Rate would increase/(decrease) profit for the year by the amounts shown below. None of these changes would result in impairment.

MOVEMENT IN INVESTMENT IN SUBSIDIARIES (CONTINUED)

The details of the movement in investment in subsidiaries is as disclosed below:

(A) SERENGETI BREWERIES LIMITED (SBL)

The investment in SBL did not decrease in the year ended 30 June 2024.

IMPAIRMENT ASSESSMENT

An impairment assessment of the carrying amount of the investment in SBL at Company level was performed at the end of the year using the value-in-use model. The key assumptions used in the value-in-use model are shown in Note 23. Based on the assumptions, the carrying amount of the investment was lower than the recoverable amount.

SIGNIFICANT ESTIMATE: IMPACT OF POSSIBLE CHANGES IN KEY ASSUMPTIONS

If the budgeted cash flows used in the value-in-use calculation for SBL had been 10% lower than management's estimates at 30 June 2024, the Company would not have recognised any impairment against the carrying amount of the investment in subsidiary (2023: Nil).

If the discount rate applied to the cash flow projections for SBL had been 1% higher than management's estimates (17.40% instead of 16.40%), the Company would not have to recognise an impairment against the carrying value of the investment in subsidiary (2023: Nil).

If the terminal growth rate applied to the cash flow projections for SBL had been 1% lower than management's estimates (3.50% instead of 4.50%), the Company would not have had to recognise any impairment against the carrying value of the investment in subsidiary (2023: Nil).

31. CONTINGENT LIABILITIES

The Group has operations in East African countries and is subject to a number of legal and tax claims incidental to these operations, the outcome of which cannot at present be foreseen and the possible loss or range of loss of which cannot at present be meaningfully quantified.

Based on their own judgement and professional advice received from legal, tax and other advisors, the Directors believe that the provision made for all these claims sufficiently covers the expected losses arising from them. For most of these cases, the likelihood that the Group will suffer significant charges or payments is remote; however, in a few cases the Directors consider it possible but not probable that such charges will be incurred.

The Group continues to vigorously defend its position. The Directors continue to monitor the development of these matters and to the extent those developments may have a major impact on its financial position or may significantly affect its ability to meet its commitments, the Group shall disclose those developments in line with its listing obligations as required by relevant regulations.

The international tax environment has seen increased scrutiny and rapid change over recent years bringing with it greater uncertainty for multinationals. Against this backdrop, EABL has

been monitoring developments and continues to engage transparently with the tax authorities in the countries where EABL operates to ensure that the Group manages its arrangements on a sustainable basis.

Kenya Breweries Limited (KBL), a subsidiary of EABL, was involved in a number of protracted excise duty disputes with the Kenya Revenue Authority (KRA) over locally produced keg beer. In January 2021, the Cabinet Secretary of Treasury (CS) approved the abandonment of some taxes demanded by KRA under the disputes, as per the provisions of section 37 of the Tax Procedures Act, and consequently, KBL paid the agreed final settlement of Kshs 3.5Bn, and the KRA closed all the matters related to the disputes. However, in April 2023, the Cabinet Secretary issued a letter revoking the abandonment, citing advice from the KRA and lack of justification for the abandonment. Shortly thereafter, KBL received a demand letter from the KRA for immediate payment of Kshs 8.2Bn. KBL sought legal advice and has extensive documentation showing the involvement and approval of both the Cabinet Secretary and KRA in the abandonment process. Based on independent legal advice, the directors believe that the company lawfully obtained the abandonment of assessed tax in 2021 and its petition at the High Court has strong grounds to succeed.

Idhini ya kutumiwa kwa Nambari ya Simu iliyotolewa

NINGEPENGA/TUNGEPENDA kutoa idhini yangu/yetu ya kutumiwa kwa nambari ya simu niliyoitoa/tuliyoitoa kwa ajili ya kupiga kura katika AGM..

Maelezo:

1. Iwapo mwanachama atashindwa kuhudhuria yeye binafsi, Fomu hii ya Uwakilishi inafaa kujazwa, kutiwa saini na kutumwa kupitia barua pepe kwa eabl.agm@eabl.com au iwasilishwe (pamoja na barua ya idhini ya wakili au mamlaka nyingine (iwapo itakuwepo) ambayo imetiwa saini chini yake au nakala ya cheti cha kutoa idhini au mamlaka ambacho kimetiwa muhuri) kwa Image Registrars Limited, Ghorofa ya 5, jumba la Absa Towers (zamani ikiitwa Barclays Plaza), Loita Street, S.L.P. 9287-00100 GPO Nairobi ili ipokelewe kabla ya Jumanne 10 Septemba, 2024 saa tano asubuhi (11:00 a.m.), yaani si chini ya saa 48 kabla ya wakati wa kufanyika kwa mkutano au iwapo utaahirishwa au, iwapo kura itapigwa baada ya tarehe ya kufanyika kwa mkutano, au baada ya mkutano ulioahirishwa, sio chini ya saa 24 kabla ya wakati uliowekwa wa kura kupigwa ambayo hupigwa zaidi ya saa 48 baada ya kufanyika kwa mkutano au mkutano ulioahirishwa.
2. Iwapo anayeteua mwakilishi ni kampuni au shirika, Fomu ya Uwakilishi inafaa kupigwa mhuri rasmi wa kampuni au kuidhinishwa na afisa au wakili aliyeidhinishwa kuiwakilisha kampuni au shirika hilo.
3. Kama mwenyehisa, una haki ya kumteua mwakilishi au wawakilishi wa kutekeleza haki zako zote au baadhi ya haki zako kama mwenyehisa na kuzungumza na kupiga kura kwa niaba yako katika mkutano. Uteuzi wa Mwenyekiti kama mwakilishi umetolewa kama njia moja ili kurahisisha mambo. Ili kuteua mtu mwingine kuwa mwakilishi, piga kalamu maneno 'Mwenyekiti wa Mkutano aliyeteuliwa' na uandike majina kamili ya mwakilishi wako katika nafasi iliyotolewa. Mwakilishi sio lazima awe mwenyehisa wa Kampuni.
4. Kujazwa na kuwasilishwa kwa fomu ya uwakilishi hakutakuzuia wewe mwenyewe kuhudhuria na kupiga kura mkutanoni, ambapo, iwapo itafanyika, kura itakayopigwa na mwakilishi wako haitahesabiwa.
5. Chaguo la "kususia" limeorodheshwa kwenye sehemu ya kupiga kura kwenye fomu hii ya uwakilishi. Matokeo ya kisheria ya kutumia chaguo hili kwenye azimio lolote ni kwamba utahesabiwa kama mtu ambaye hakupigia kura azimio hilo. Idadi ya kura zilizosusiwa, hata hivyo, itahesabiwa na kurekodiwa, lakini hazitatumikiwa katika kuhesabu idadi ya kura zilizounga mkono au kupiga kila azimio.
